Industrial scales, sensors, and system solutions

For trade, commerce, and industry

Soehnle Industrial Solutions

The scales made by Soehnle Industrial Solutions position the company among the leading suppliers of professional measurement and weighing technology. In addition to our proven standard products for trade, commerce and industry as well as medical, health and veterinary needs, we are now also offering custom solutions tailored to almost any special requirements you may have.

We develop and produce in Germany and distribute our products around the world. As a mid-sized company, we stand for a strong brand, high-quality products and customer-oriented service.

Made in Germany

For us, this means:

- ▶ The scale is manufactured at our headquarters in 71522 Backnang/Germany.
- ▶ We are committed to, and do our part to strengthen Germany as a manufacturing base.
- ▶ We manage almost all components for our scales, including spare parts, therefore assuring many years of professional service by our factory, but also by our local service partners.

Accuracy / high-resolution scales

The accuracy of a scale is influenced by a wide range of factors

- ▶ Warmup time of at least 30 minutes
- ▶ Tilted positioning (level setup with level adjustment)
- ▶ Earth gravity (setup location)
- ▶ Ambient temperature
- ▶ Airflow
- ▶ Interference, such as vibration

Approvable scales meet the calibration and operating error limits specified by DIN EN 45501. Not approvable high-resolution scales are calibrated for a gravitational acceleration of 9.810 m/s^2 . The scales can be optionally calibrated for your setup location.

Please specify the setup location when ordering.

A daily verification with a calibration weight may be appropriate for quality-relevant readings. The employed calibration weight must correspond to the nominal load of the scale. A periodic calibration is also recommended for accurate readings. A calibration must be performed after a change of setup location or temperature changes.

An accuracy of $\pm 5d$ can be expected for high resolution scales. An accuracy of $\pm 3d$ can be expected for scales with optional precision calibration. The reproducibility and linearity corresponds to the division.

The accuracy for off-center loads should be verified as follows: 1/3 of the nominal load centered on 1/4 of the weighing platform.

Order No.: 5752.02.004

As individual as our customers

Our strength is our modular system. You choose from different platform sizes and weighing ranges, combine a terminal and decide for an individual mounting, depending on the place of use, for a compact, table, stand, wall or floor scale. In addition, Soehnle Industrial Solutions offers individual solutions.

Certificates

DIN ISO 9001 Quality management

93/42/EWG – Medical devices

CE-066 – Weighing Directive

Services

Durability, ease of use and top quality - by purchasing your Soehnle Industrial Solutions product you have made an excellent decision.

With our services, your scales are also optimally protected.

- ▶ With the **warranty extension** for end customers, you have the opportunity to cost-effectively extend the two-year manufacturer's warranty by a further two years.
- ▶ Sign a Soehnle Industrial Solutions **maintenance contract** and rely on cost predictability and enjoy continuous professional maintenance.
- ▶ Don't miss any more recalibrations, have your scales checked and support yourself during calibration - use our expert **calibration service** for legal-for-trade scales.

DAkkS calibrations

For non-automatic electronic scales according to DIN EN ISO/IEC 17025:2005

During calibration, the relationship of the display values to defined values of „standards“ is determined. The resulting measurement uncertainty helps you to meet the requirements of your customers and the quality management system. At the same time, you also have proof of the „accuracy“ of your weighing results and a reliable scale for quality-relevant processes.

Our service for you

- ▶ DAkkS calibrations of laboratory, precision, commercial, industrial and medical scales
- ▶ Weighing ranges up to 3.000 kg (over 3.000 kg on request)
- ▶ Testing, calibration and possible adjustment
- ▶ Permanent Laboratory
- ▶ On-site calibration
- ▶ Qualified specialist personnel
- ▶ Competence confirmed by the German Accreditation Body
- ▶ IT-supported calibration process
- ▶ Brand-independent service
- ▶ Issue of a calibration certificate
- ▶ Attaching of a calibration mark
- ▶ We create your individual offer

Calibration at the Backnang plant. For on-site calibrations, we will be pleased to prepare an individual offer on request.

Payment and delivery terms and conditions

Delivery terms: Shipments are made pursuant to our standard business terms and conditions. See www.soehnle-professional.com/en/terms

Delivery: Based on agreement.

Billing: All invoices are categorically made out in Euros unless a different billing method was agreed.

Scale system configuration: If a scale system with several components is ordered (e.g. with reference scales, control light, printer, etc.), the system will be pre-configured by the factory so that the system is operational immediately following setup. For this purpose, your purchase order must indicate the desired settings and the Order No. 5751.01.003.

Data set/printing format install: On request, the factory can install an already available data set and/or an available printing format prior to shipping the terminal. For this purpose, your purchase order must indicate the Order No. 5751.01.004.

Conformity assessment costs: Conformity assessed scales are supplied at the cost of the conformity assessment „Conformity“ shown in the price list. The conformity assessment of a measuring instrument basically replaces the previous initial approval. Approvable scales are supplied unapproved, unless specifically ordered as conformity assessed scales. Please indicate the place of installation. If weighing instruments are to be conformity assessed at a later date, this will entail considerable costs or may no longer be possible in some cases. In such cases, we therefore recommend that you also order the conformity assessment directly in order to prevent problems later on.

Units: Conformity assigned and approvable scales ex works in kg, not approvable scales can be switched to lb. Precision scales in g.

Guarantee: Our products come with a 24 month guarantee.
www.soehnle-professional.com/guarantee

Software: Software cannot be returned or exchanged.
See software license terms and conditions under:
www.soehnle-professional.com/en/software-license-agreement

Delivery time: The products are labeled according to their expected delivery time as follows:

Delivery from stock = LAG;
Delivery within 1 week = 1;
Delivery within 2 – 3 weeks = 2 – 3;
Delivery within 4 weeks = 4
Delivery on request = ANF

A longer delivery time may be required for a conformity assessment or other services.

Signs and symbols

Soehnle Industrial Solutions scales carry the CE-mark according to valid standards.

Scales with this mark are conformity assigned as a non-automatic scale or approvable according to the Accuracy Class III.

Conformity assigned scales comply with the Weighing Instruments Directive 2014/31/EC.

The "International Organization of Legal Metrology (OIML)" certifies that the measuring device design complies with the recommendations of the OIML.

Dust and water spray protection. Protection class according to pictogram.

Weighing platform made from stainless steel.

Scales and terminals are equipped with an RS 232 interface or have this option.

Scales and terminals are equipped with a USB interface or have this option.

Scales and terminals are equipped with a Profinet interface or have this option.

Scales and terminals are equipped with a Profibus interface or have this option.

Scales and terminals are equipped with an Ethernet interface or have this option.

Scales and terminals support wireless data transfer via Bluetooth™ or have this option.

Scales and terminals support wireless data transfer via WLAN or have this option.

Scales and terminals can be operated with batteries or rechargeable batteries or have this option.

Power supply mode: 100 – 240 V / 50 – 60 Hz.

Scales and terminals with integrated rechargeable battery and plug-in power supply 100 – 240 V / 50 – 60 Hz.

Scales with counting function.

In accordance with Directive 2014/34/EC, the devices may be used in ATEX zones 2 and 22 categories 3G and 3D.

Soehnle Industrial Solutions products are manufactured to the highest standards of the SIS Total Quality Management system. Comprehensive quality controls during all stages of the production process guarantee consistently high-quality products.

For mobile use

Features

- ▶ High-resolution single-range scale, not approvable
- ▶ Fast and easy single-key operation with extra-large key
- ▶ Rechargeable battery operation and extra low-profile design facilitate flexible use in different locations
- ▶ Terminal can be pulled out by up to 30 mm. Benefits: Bigger weighing surface without obstructing the terminal, better access to plug-in connections
- ▶ Internal user calibration for location-specific adjustments
- ▶ Weight units switchable between kg and lb
- ▶ Functions: Weighing, taring, adding, plus / minus / check, hold, removal weighing
- ▶ Large LC display (no backlighting), character height: 20 mm
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Powder-coated steel or stainless steel 1.4301 (only protection class IP 65), terminal housing: Plastic
- ▶ Integrated rechargeable battery with plug-in power supply 100 – 240 V / 50 – 60 Hz, operating time: ca. 50 hours, charging time: 5.5 hours, UK power adapter see options
- ▶ Energy-efficient due to integrated Auto-off function of the rechargeable battery with adjustable timer from 1 – 30 minutes or continuous operation
- ▶ Scale dimensions / scale weight:
 - 310 x 355 x 70 mm, 6 kg
 - 400 x 380 x 75 mm, 10 kg
 - 520 x 480 x 75 mm, 20 kg (powder-coated)
 - 520 x 480 x 100 mm, 23 kg (stainless steel)
- ▶ Protection class IP 42 or IP 65
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Nominal operating temperature: -10°C to 40°C

Options (for protection class IP 42)

- ▶ RS 232 IT interface installed, Order No.: 2563.21.004
- ▶ Data cable 3 m, Order No.: 2550.03.014
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Please find other accessories and IT interface options on page 19.

Compact scale Standard

For various weighing tasks

→
30 mm

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Flexible control using 5 control keys with customizable shortcut via user-programmable function key
- ▶ Terminal can be pulled out by up to 30 mm. Benefits: Bigger weighing surface without obstructing the terminal, better access to plug-in connections
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Connection for large display via optional RS 232 interface, decoupled
- ▶ Optionally with control light connection for pass / fail quality control
- ▶ Functions: Weighing, taring, counting, checking, count check, neutral measuring, percent weighing, plus / minus weighing, adding, GLP protocol
- ▶ PLU memory
- ▶ Price display: Optional scale software for price calculation and approved transfer to an IT system
- ▶ Includes software for PLU management for unit weights and tare (compatible with Windows XP and Vista, see accessories on page 19 for matching data cable)
- ▶ Backlit LC display (dimable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply options: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Stainless steel 1.4301 or powder-coated steel, terminal housing: Plastic
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Scale dimensions / scale weight:
310 x 355 x 70 mm, 6 kg
400 x 380 x 75 mm, 10 kg
520 x 480 x 75 mm, 20 kg (powder-coated)
520 x 480 x 100 mm, 23 kg (stainless steel)
- ▶ Protection class IP 42
- ▶ Nominal operating temperature: -10°C to 40°C
- ▶ Recommended minimum reference weight for counting parts: 3 divisions

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001:

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002

Compact scale Professional

For professional use

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Terminal with 12-key operator control and customizable shortcut with user-programmable function keys
- ▶ High protection class IP 65 as protection against dust and water spray in rough environments
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Connection for large display via optional RS 232 interface, decoupled
- ▶ With second scale interface for easy implementation of counting scale systems. Can be combined with the weighing platforms on page 65 and up
- ▶ Optionally with control light display connection for quality assurance by pass / fail check
- ▶ Functions: Weighing, taring, counting (with reference weight optimization and add mode), count check, checking, PLU checking, totaling, order picking, recipe measuring, dosing, neutral measuring, percent weighing, plus / minus weighing, adding, GLP protocol
- ▶ PLU memory
- ▶ Includes software for PLU management for unit weights, target values, count check, tare, and recipe values (compatible with Windows XP and Vista, see accessories on page 19 for matching data cable)
- ▶ Backlit LC display (dimnable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Stainless steel 1.4301 or powder-coated steel, terminal housing: Plastic
- ▶ Scale dimensions / scale weight:
 - 310 x 355 x 70 mm, 6 kg
 - 400 x 380 x 75 mm, 10 kg
 - 520 x 480 x 75 mm, 20 kg (powder-coated)
 - 520 x 480 x 100 mm, 23 kg (stainless steel)
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Nominal operating temperature: -10°C to 40°C
- ▶ Recommended minimum reference weight for counting parts: 3 divisions

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001:

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002
- ▶ Ethernet interface installed, Order No.: 2563.45.002
- ▶ USB interface installed, Order No.: 2563.47.002
- ▶ Bluetooth™ interface installed, Order No.: 2563.12.001
- ▶ Second display installed, Order No.: 2562.70.002
- ▶ Alibi software installed, Order No.: 2792.20.002
- ▶ Rechargeable battery pack installed for mains-independent operation, operating time: ca. 30 hours (depends on settings), charging time: 5.5 hours, Order No.: 2557.40.002
- ▶ Control light, 4 lights, Order No.: 2551.04.001
- ▶ Control light, 3 lights, Order No.: 2551.50.002
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Find other accessories and options for IT integration and printer solutions on page 19 and in sections 14, 15, 16 and 17.

Compact scale Dual Standard

For mail and package shipping

Features

- ▶ Approvable dual-range scale with extra-high overall resolution
- ▶ Approvable iaw. accuracy class III
- ▶ Flexible control using 5 control keys with customizable shortcut via programmable function key
- ▶ Ideal for use in logistics, transportation, and shipping applications, optionally for determining shipping fees for mail and packages (minimum load: 5 g)
- ▶ High-speed data transfer via integrated RS 232 interface and print function
- ▶ Functions: Weighing, taring
- ▶ Backlit LC display (dimable), character height: 16 mm
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Powder-coated steel, Terminal housing: Plastic
- ▶ Scale dimensions / scale weight: 350 x 328 x 120 mm, 9,5 kg
- ▶ Protection class IP 42
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level
- ▶ Nominal operating temperature: -10°C to 40°C

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001:

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002
- ▶ Ethernet interface installed, Order No.: 2563.45.002
- ▶ USB interface incl. 3 m USB data cable and integrated interface for second display, Order No.: 2563.47.005
- ▶ Bluetooth™ interface installed, Order No.: 2563.12.001
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ Alibi software installed, Order No.: 2792.20.002

Please find other accessories, IT integration options, and printer solutions on page 19 and in sections 14, 15, 16 and 17.

Standard food service scale 7135

For catering applications

Features

- For self-service restaurants, experiential catering, in confectionery and pastry shops, highway restaurants, snack bars, cinemas and coffee shops, cafeterias, canteens and schools
- The scale can be used as a salad scale, candy scale, check scale, portioning scale, and as a basis for pricing
- Intended for point of sale integration
- Standard configuration as approvable dual-range scale (accuracy class III)
- Flexible control using 5 control keys with customizable shortcut via user-programmable function key and fixed tare value memory
- Fast data transfer via integrated RS 232 interface and print function
- Functions: Weighing, taring, zero reset, plus / minus weighing, adding, checking, neutral measuring
- PLU memory
- Includes software for PLU management (compatible with Windows XP and Vista, see accessories on page 19 for matching data cable)
- Backlit operator LC display (dimable), character height: 16 mm
- Customer display (no backlighting), character height: 16 mm
- Integrated realtime clock with date
- Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options

- Weighing platform: Stainless steel 1.4301, Base frame: Powder-coated steel, Terminal housing: Plastic
- Scale dimensions / scale weight: 310 x 430 x 70 mm, 6 kg
- Protection class IP 42
- Scale leveling up to 10 mm with 4 adjustable feet and spirit level
- Nominal operating temperature: -10°C to 40°C

Compact scales 9202, 9203

For fast portioning, checking, and adding

Features

- ▶ Simple operation with three keys for switching on / off, taring, adding, unit switching
- ▶ Weighing platform and housing made from 1.4301 stainless steel
- ▶ LC display with 20 mm character height
- ▶ Battery operation with 9 V block (battery not included in supplied scope, power supply optional)
- ▶ Auto-off function for battery mode (after 2 minutes)
- ▶ User calibration
- ▶ Nominal operating temperature: 0°C to 40°C
- ▶ Dimensions: 170 x 150 x 32 mm
- ▶ Scale weight: 690 g
- ▶ Unit changeover switch g / lb (9202), kg / lb (9203)

Order No.:	Platform size mm	Maximum load g	Division g	Delivery time from
9202.10.001	120 x 150	500	0,1	LAG

Power supply 9 V, 300 mA, jack plug	5901.00.001
-------------------------------------	-------------

Compact scale 9330

For easy readability while portioning, checking, and adding

Features

- ▶ Single-key operation for easy handling
- ▶ Multi range scale
- ▶ Ideal readability with large backlit LC display and 50 mm character height
- ▶ Weighing platform made from 1.4301 stainless steel
- ▶ Low-maintenance ABS plastic housing
- ▶ Taring over the entire weighing range
- ▶ Integrated lead-gel rechargeable battery 6 V for approx. 100 hours, incl. power supply
- ▶ Dimensions: 370 x 360 x 130 mm
- ▶ Scale weight: 5.2 kg
- ▶ Nominal operating temperature: 0 °C to 40 °C

Order No.:	Platform size mm	Maximum load kg	Division g	Delivery time from

Compact scale 9115

For wet applications

Features

- ▶ Simple single-key operation for switching on / off, taring, adding, order picking
- ▶ Rugged dust and water spray protected design, protection class IP 65 iaw. EN 60 529
- ▶ Weighing platform made from 1.4301 stainless steel
- ▶ Housing made from food-grade plastics
- ▶ LC display with 20 mm character height
- ▶ Plug-in power supply 230 V
- ▶ Battery compartment for 4 Mignon batteries for approx. 500 hours of operation (depending on battery / rechargeable battery quality)
- ▶ Dimensions: 305 x 295 x 60 mm
- ▶ Scale weight: 3.9 kg
- ▶ Unit changeover switch kg / lb

Order No.:	Platform size mm	Maximum load kg	Division g	Delivery time from

Compact scale 9241

For check weighing and simple counting tasks

Features

- ▶ Functions: Taring, zero reset, counting (for counting parts from 2d and up), totaling, hold, checking
- ▶ Weighing platform made from 1.4301 stainless steel
- ▶ Impact-resistant ABS plastic housing
- ▶ Protection class IP 54
- ▶ LC display with 24 mm character height
- ▶ Backlighting with battery saver mode
- ▶ User calibration
- ▶ Plug-in power supply 230 V with charging function
- ▶ Integrated rechargeable battery for approx. 70 hour of operation
- ▶ Dimensions: 320 x 320 x 120 mm
- ▶ Includes protective hood
- ▶ Scale weight: 3.8 kg
- ▶ Unit changeover switch kg / lb

Order No.:	Platform size mm	Maximum load kg	Division g	Delivery time from

2. Retail scales

For food retail sales

Retail scale 9360

For sales as retail scale

Features

- ▶ Approvable class III retail scales
- ▶ Easy and accurate weight and price determination
- ▶ 5 direct PLU memory locations, 99 additional PLU memory locations
- ▶ Direct price entry
- ▶ Set key for prices
- ▶ Audio key acknowledgment
- ▶ Functions: Automatic selling price calculation, taring, change calculation
- ▶ Display for weight, unit price, and selling price
- ▶ Second display for the customer on back of scale
- ▶ Switchover between EUR / 100 g and EUR / kg
- ▶ Backlit LC display with 20 mm character height
- ▶ Dual-range scale with precision division in the lower weighing range, resulting in a smaller approved minimum load
- ▶ Power supply mode: 230 V, 50 Hz
- ▶ Standard configuration includes rechargeable battery for approx. 70 hours of continuous operation, charge level warning and power supply with charging function
- ▶ Weighing platform made from 1.4301 stainless steel
- ▶ Housing made from low-maintenance plastics
- ▶ Dimensions: 370 x 360 x 130 mm
- ▶ Scale weight: 5.8 kg

Bench scale Basic

For simple weighing tasks

Features

- ▶ Bench scale with separate display and 2.5 m cable, includes wall bracket
- ▶ Fast and easy single-key operation with extra-large key
- ▶ Battery operation and extra low-profile design facilitate flexible use in different locations
- ▶ Internal user calibration for location-specific adjustments
- ▶ Weight units switchable between kg and lb
- ▶ Functions: Weighing, taring, adding, plus / minus weighing, hold
- ▶ Large LC display, character height: 20 mm (no backlighting)
- ▶ Weighing platform: Stainless steel 1.4301,
Base frame: Powder-coated steel or 1.4301 stainless steel
(only protection class IP 65), terminal housing: Plastic
- ▶ Integrated rechargeable battery with plug-in power supply 100 – 240 V / 50 – 60 Hz, operating time: ca. 50 hours, charging time: 5.5 hours, UK power adapter see options
- ▶ Energy-efficient due to integrated Auto-off function of the rechargeable battery with adjustable timer from 1 – 30 minutes or continuous operation
- ▶ Scale dimensions / scale weight:
Platforms:
310 x 275 x 70 mm, 6 kg
400 x 300 x 75 mm, 10 kg
520 x 400 x 75 mm, 20 kg (powder-coated)
520 x 400 x 100 mm, 23 kg (stainless steel)
660 x 550 x 105 mm, 40 kg
660 x 550 x 135 mm, 25 kg
800 x 600 x 135 mm, 30 kg
Terminal: 270 x 85 x 58 mm, 1,2 kg
- ▶ Protection class IP 42 or IP 65
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Nominal operating temperature: -10°C to 40°C

Options (for protection class IP 42)

- ▶ RS 232 IT interface installed, Order No.: 2563.21.004
- ▶ Data cable 3 m, Order No.: 2550.03.014
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Please find other accessories and IT interface options on page 37.

Bench scale Standard

For various weighing tasks

3

Features

- ▶ Bench scale with separate display and 2.5 m cable, includes wall bracket
- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Flexible control using 5 control keys with customizable shortcut via user-programmable function key
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Connection for large display via optional RS 232 interface, decoupled
- ▶ Optionally with control light display connection for quality assurance by pass / fail control
- ▶ Functions: Weighing, taring, count check (checking and counting), plus / minus weighing, adding, checking, counting, neutral measuring, percent weighing, GLP / GMP protocol
- ▶ PLU memory
- ▶ Includes software for PLU management for unit weights and tare (compatible with Windows XP and Vista, see accessories for matching data cable)
- ▶ Backlit LC display (dimmable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Stainless steel 1.4301 or powder-coated steel, terminal housing: Plastic
- ▶ Scale dimensions / scale weight:
 - 310 x 275 x 70 mm, 6 kg
 - 400 x 300 x 75 mm, 10 kg
 - 520 x 400 x 75 mm, 20 kg
 - 520 x 400 x 100 mm, 23 kg
 - 660 x 550 x 105 mm, 40 kg
 - 660 x 550 x 135 mm, 25 kg
 - 800 x 600 x 135 mm, 30 kg
 - Terminal: 270 x 85 x 58 mm, 1,2 kg

- ▶ Protection class IP 42
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Nominal operating temperature: -10°C to 40°C
- ▶ Recommended minimum reference weight for counting parts: 3 divisions

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001:

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002
- ▶ Ethernet interface installed, Order No.: 2563.45.002
- ▶ USB interface installed, incl. 3 m cable, Order No.: 2563.47.004
- ▶ Bluetooth™ interface installed, Order No.: 2563.12.001
- ▶ Pricing software, Order No.: 2564.50.001
- ▶ Alibi software installed, Order No.: 2792.20.002
- ▶ Rechargeable battery pack installed for mains-independent operation, operating time: ca. 30 hours (depends on settings), charging time: 5.5 hours, Order No.: 2557.40.001
- ▶ Control light, 4 lights, Order No.: 2551.04.001
- ▶ Control light, 3 lights, Order No.: 2551.50.002
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Find other accessories and options for IT integration and printer solutions on page 37 and in sections 14, 15, 16 and 17.

Bench scale Professional

For professional use

Features

- ▶ Bench scale with separate display and 2.5 m cable, includes wall bracket
- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Terminal with 12-key operator control and customizable shortcut with user-programmable function key
- ▶ High protection class IP 65 as protection against dust and water spray in rough environments
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Connection for large display via optional RS 232 interface, decoupled
- ▶ With second scale interface for easy implementation of counting scale systems. Can be combined with the weighing platforms on page 65 and up
- ▶ Optionally with control light connection for pass / fail quality control
- ▶ Functions: Weighing, taring, plus / minus weighing, adding, checking, recipe weighing, totaling, order picking, counting, count check, neutral measuring, percent weighing, PLU controls, dosing, GLP / GMP protocol
- ▶ PLU memory
- ▶ Includes software for PLU management for unit weights, target values, count check, tare, and recipe values (compatible with Windows XP and Vista, see accessories on page 37 for matching data cable)
- ▶ Backlit LC display (dimable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Stainless steel 1.4301 or powder-coated steel, terminal housing: Plastic
- ▶ Scale dimensions / scale weight:
Platforms:
310 x 275 x 70 mm, 6 kg
400 x 300 x 75 mm, 10 kg
520 x 400 x 75 mm, 20 kg (powder-coated)
520 x 400 x 100 mm, 23 kg (stainless steel)
660 x 550 x 105 mm, 40 kg
660 x 550 x 135 mm, 25 kg
800 x 600 x 135 mm, 30 kg
Terminal: 270 x 85 x 58 mm, 1,2 kg
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Nominal operating temperature: -10°C to 40°C
- ▶ Recommended minimum reference weight for counting parts: 3 divisions

Options

Accessories		Order No.:	Basic P-Nr.	Standard P-Nr.	Professional P-Nr.
Appr.	Alibi memory installed*	2792.		20.002	20.002
	Plug-in interface with ID chip installed, approvable section point between compact and second scale*	2550.			05.002
Interfaces/Data cables	 RS 232 IT interface installed, 9 pin (not decoupled)*	2563.	21.004		
	 IT data cable for Basic and Standard 3 m, 9 pin, data cable for Professional 2 m, 5 pin – 9 pin (for not decoupled interface)	2550.	03.014	03.014	
	 RS 232 IT interface installed, 5 pin (decoupled)*	2563.		21.002	21.002
	 IT cable 2 m, 5 pin – 9 pin, (for decoupled interface)	2550.		03.002	03.002
	 IT cable 2 – 10 m, 5 pin – 9 pin, (for decoupled interface)	2550.		00.008	00.008
	USB interface installed*	2563.			47.002
	USB data cable 2 m	2550.			03.011
	USB / second display interface, incl. 3 m USB cable*	2563.		47.004	
	Ethernet interface installed, incl. 10 m patch cable* (not combined with rechargeable battery pack)	2563.		45.002	45.002
	WLAN module configured (only in conjunction with installed Ethernet interface)*	2563.		10.004	10.004
	Bluetooth™ interface installed*	2563.		12.001	12.001
	Label printer with cut-off device, print width up to 104 mm (thermo-direct)	2795.		12.001	12.001
Printers	Label printer, print width up to 108 mm (thermo-direct)	2795.		20.001	20.001
	Tape printer, paper width up to 76 mm (9 pin)	2795.		14.001	14.001
	 Printer cable 2 m, 9 pin – 25 pin, (for not decoupled interface)	2550.		03.015	
	 Printer cable 1.8 m. 9 pin (printer 2795.20.001)	2550.		03.030	
	 Printer cable 5 pin – 25 pin, (for decoupled interface)	2550.		03.007	03.007
	 Printer cable 5 pin – 25 pin, 2 – 10 m (for decoupled interface)	2550.		00.009	00.009
Displ./Contr. light	Second display installed, protection class IP 65, dimensions: 270 x 85 x 58 mm, cable 2 m, 5 pin plug, incl. interface, no backlighting, power supplied by scale*	2562.		70.002	70.002
	Large display LED 100 mm, 5 pin plug with 15 m cable	2562.		01.003	01.003
	Second display LED 38 mm, 5 pin plug with 15 m cable	2562.		12.001	12.001
	Control light, 4 lights* (no retrofit possible)	2551.		04.001	04.001
	Control light, 3 lights* (no retrofit possible)	2551.		50.002	50.002
Software	PC service software (print image design, data record, printer setup)	2564.		10.001	10.001
	Scale Connecting, software for transferring scale data to PC-based software	2564.		20.002	20.002
	Scale Connecting Plus, extensive software for transferring scale data to PC-based software (with activation code)	2564.	20.005	20.005	20.005
	Pricing software	2564.		50.001	
	Software for linking scale to SAP R/3, to link scale via RS 232, USB or Ethernet	2564.		20.006	20.006
Miscellaneous	Keyboard wedge USB, for RS 232 scale interface to PC USB interface (additionally required data cable 2550.03.011, 9 pin connection 37xx - PC)	2563.	00.008	00.008	00.008
	Rechargeable battery pack installed for mains-independent operation* (not combined with ethernet interface)	2557.		40.001	40.002
	UK power adapter	2557.	25.002	25.002	25.002
	Name plate, blank (only for second scale interface Professional)	2512.			06.001
	Name plate, with entries	2512.		06.002	06.002

Please include the Order No. + P No. when placing your purchase order.

* Any required options must be included in the purchase order. Retrofits are not possible

Bench scale Standard 73x, 93x

For demanding goods receiving, production, and shipping applications

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Base terminal 3010 with 10-key operator control
- ▶ Functions: Weighing and taring, counting, totalising, batching, withdrawal weighing, switching point programming, checking, count checking, dosing
- ▶ Display switchover from kg to lb
- ▶ Includes wall / stand bracket made from 1.4301 stainless steel
- ▶ Display unit 3010 in stainless steel housing: Protection class IP 65
- ▶ Weighing platform made from 1.4301 stainless steel, removable for easy cleaning, protection class IP 65 or IP 68/69K also supports high-pressure cleaning
- ▶ Base frame made from powder-coated steel in an extra low-profile design
- ▶ Load cell made from aluminum alloy, three-range scales: Load cell made from stainless steel
- ▶ Backlit LC display with 16 mm character height
- ▶ Three LEDs red / yellow / green as control lights
- ▶ Integrated power supply for 100 – 240 V
- ▶ Choice of 5 platform sizes
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Cable length: 2.5 m
- ▶ Nominal operating temperature: -10°C to 40°C

Options

- ▶ Roller table (see page 73)

Other accessories, see base terminal 3010 pages 106 – 108

Bench scale stainless steel 73x, 93x

For demanding chemical, pharmaceutical, and food processing applications

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Base terminal 3010 with 10-key operator control
- ▶ Functions: Weighing and taring, counting, totalising, batching, withdrawal weighing, switching point programming, checking, count checking, dosing
- ▶ Display switchover from kg to lb
- ▶ Includes wall / stand bracket made from 1.4301 stainless steel Display unit 3010 in stainless steel housing: Protection class IP 67
- ▶ Weighing platform made from 1.4301 stainless steel, removable for easy cleaning, protection class IP 65 or IP 68/69K also supports high-pressure cleaning
- ▶ Base frame made from stainless steel in an extra low-profile modular design
- ▶ Load cell made from stainless steel
- ▶ LC display with 16 mm character height
- ▶ Three LEDs red / yellow / green as control lights
- ▶ Integrated power supply for 100 – 240 V
- ▶ Choice of 5 platform sizes
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Cable length: 2.5 m
- ▶ Nominal operating temperature: -10°C to 40°C

Options

- ▶ Roller table in stainless steel on request

Different models and dimensions available on request.

Bench and stand scales 9055/56/57, 9955

For applications not subject to approval mandate

Features

- ▶ Extra low-profile, ergonomic stainless steel platform; weighed goods only need to be lifted minimally
- ▶ Separate display unit – weighed goods do not conceal the display
- ▶ Fast and easy single-key operation with extra-large key
- ▶ Battery mode supports flexible use at different locations
- ▶ Energy-efficient due to integrated Auto-off function of the rechargeable battery with adjustable timer from 1 – 30 minutes or continuous operation
- ▶ Internal user calibration for location-specific adjustments
- ▶ Weight units switchable between kg and lb
- ▶ Functions: Weighing, taring, adding, plus / minus weighing, hold
- ▶ Includes wall bracket (on configurations with separate display)
- ▶ Large LC display, character height: 20 mm
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Painted or galvanized sheetmetal
- ▶ Integrated rechargeable battery with plug-in power supply 100 – 240 V / 50 – 60 Hz, operating time: ca. 50 hours, charging time: 5.5 hours, UK power adapter see options
- ▶ Scale dimensions / scale weight:
 - Bench scales:
 - 310 x 275 x 35 mm, 2,4 kg
 - 520 x 400 x 70 mm, 11 kg
 - 660 x 545 x 85 mm, 28,6 kg
 - Stand scale:
 - 310 x 400 x 520 mm, 5,1 kg
- ▶ Protection class IP 42
- ▶ Nominal operating temperature: -10°C to 40°C

Options

- ▶ RS 232 IT interface installed, Order No.: 2563.21.004
- ▶ Data cable 3 m, Order No.: 2550.03.014
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Features

- ▶ High-resolution single-range scale, not approvable, with division of 0.1 g and up
- ▶ Display at eye level
- ▶ Weighed goods do not conceal display
- ▶ Compact unit, portable
- ▶ Fast and easy single-key operation with extra-large key
- ▶ Battery mode supports flexible use at different locations
- ▶ Internal user calibration for location-specific adjustments
- ▶ Weight units switchable between kg and lb
- ▶ Functions: Weighing, taring, adding, plus / minus control, hold
- ▶ Large LC display (no backlighting), character height: 20 mm
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Powder-coated steel or 1.4301 stainless steel (only protection class IP 65), terminal housing: Plastic; Stand: Powder-coated steel or 1.4301 stainless steel
- ▶ Integrated rechargeable battery with plug-in power supply 100 – 240 V / 50 – 60 Hz, operating time: ca. 50 hours, charging time: 5.5 hours, UK power adapter see options
- ▶ Energy-efficient due to integrated Auto-off function of the rechargeable battery with adjustable timer from 1 – 30 minutes or continuous operation

- ▶ Scale dimensions / scale weight:
310 x 410 x 570 mm, 7,5 kg
400 x 435 x 570 mm, 11,5 kg
520 x 535 x 570 mm, 21,5 kg
660 x 550 x 570 mm, 41,5 kg
- ▶ Clearance height: Upper edge of weighing platform to lower edge of terminal: 350 – 385 mm, depending on model
- ▶ Protection class IP 42 or IP 65
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Nominal operating temperature: -10°C to 40°C

Options (for protection class IP 42)

- ▶ RS 232 IT interface installed, Order No.: 2563.21.004
- ▶ Data cable 3m, Order No.: 2550.03.014
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Please find other accessories and IT interface options on page 37.

Stand scale Standard

For demanding goods receiving, production, and shipping applications

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Display at eye level
- ▶ Weighed goods do not conceal display
- ▶ Compact unit, portable
- ▶ Flexible control using 5 control keys with customizable shortcut via programmable function key
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Connection for large display via optional RS 232 interface, decoupled
- ▶ Optionally with control light connection for pass / fail quality control
- ▶ Functions: Weighing, taring, count check (checking and counting), plus / minus weighing, adding, checking, counting, neutral measuring, percent weighing, GLP / GMP protocol
- ▶ PLU memory
- ▶ Includes software for PLU management for item weights and tare (compatible with Windows XP and Vista, see accessories on page 37 for matching data cable)
- ▶ Backlit LC display (dimnable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Powder-coated steel or 1.4301 stainless steel, terminal housing: Plastic; Stand: Powder-coated steel or 1.4301 stainless steel
- ▶ Scale dimensions / scale weight:
310 x 410 x 570 mm, 7,5 kg
400 x 435 x 570 mm, 11,5 kg

520 x 535 x 570 mm, 21,5 kg

660 x 550 x 570 mm, 41,5 kg

- ▶ Clearance height: Upper edge of weighing platform to lower edge of terminal: 350 – 385 mm, depending on model
- ▶ Protection class IP 42
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Nominal operating temperature: -10°C to 40°C
- ▶ Recommended minimum reference weight for counting parts: 3 divisions

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001:

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002

Stand scale Professional

For professional use

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Display at eye level
- ▶ Weighed goods do not conceal display
- ▶ Compact unit, portable
- ▶ Terminal with 12-key operator control and customizable shortcut with user-programmable function keys
- ▶ High protection class IP 65 as protection against dust and water spray in rough environments
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Connection for large display via optional RS 232 interface, decoupled
- ▶ With second scale interface, can be combined with the weighing platforms on page 65 and up
- ▶ Optionally with control light connection for pass / fail quality control
- ▶ Functions: Weighing, taring, plus / minus weighing, adding, checking, recipe weighing, totaling, order picking, counting, count check, neutral measuring, percent weighing, PLU controls, dosing, GLP / GMP protocol
- ▶ PLU memory
- ▶ Includes software for PLU management for unit weights, target values, count check, tare, and recipe values (compatible with Windows XP and Vista, see accessories on page 37 for matching data cable)
- ▶ Backlit LC display (dimmable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options
- ▶ Weighing platform: Stainless steel 1.4301, Base frame: Powder-coated steel or 1.4301 stainless steel, terminal housing: Plastic; Stand: Powder-coated steel or 1.4301 stainless steel

- ▶ Scale dimensions / scale weight:
310 x 410 x 570 mm, 7,5 kg
400 x 435 x 570 mm, 11,5 kg
520 x 535 x 570 mm, 21,5 kg
660 x 550 x 570 mm, 41,5 kg
- ▶ Clearance height: Upper edge of weighing platform to lower edge of terminal: 350 – 385 mm, depending on model
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level (for appr.)
- ▶ Nominal operating temperature: -10°C to 40°C
- ▶ Recommended minimum reference weight for counting parts: 3 divisions

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001.

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002
- ▶ Ethernet interface installed, Order No.: 2563.45.002

weight optimization

5. Counting scales

Fast and accurate counting with weighing technology

Counting scales have the ability to count parts of equal weight using a known or calculated unit weight. By placing partial quantities, the counting accuracy can be optimized with the reference optimization feature and the add mode. If you know the weight of the smallest part and the weight of the largest counted quantity you need to count, then we have exactly the right counting scale for your counting needs, ranging from mobile compact counting scales – which are also popular for inventory purposes – to counting systems, where several scales are connected to one display unit.

Counting and control scale

Counting scale 9221

The mobile counting and inventory scale

Features

- ▶ Large database with 1,000 memory locations for article number, reference weight, tare weight
- ▶ Fast article access with 5 shortcut keys
- ▶ Ideally suited as inventory scale
- ▶ USB interface for PC connection, incl. 3 m data cable
- ▶ 3 backlit LC displays, character height: 19 mm
- ▶ Plug-in power supply 9 V
- ▶ Integrated lead-gel rechargeable battery 6 V for approx. 100 hours of operating time
- ▶ Dimensions: 370 x 360 x 130 mm
- ▶ Scale weight: 5 kg
- ▶ Includes software for PLU management (compatible with Windows XP and Vista)

Order No.:	Platform size mm	Maximum load kg	Division g	For counting parts from g	Delivery time week
9221.10.001	360 x 240 x 130	6	0,2	0,2	LAG
9221.11.001	360 x 240 x 130	15	0,5	0,5	LAG
9221.08.001	360 x 240 x 130	45	1	1	LAG

Counting compact scales Professional 9140, 9141, 9142

Versatile, mobile, and precise

5

Features

- ▶ High-resolution single-range scale, not approvable
- ▶ Terminal with 12-key operator control and customizable shortcut with user-programmable function keys
- ▶ High protection class IP 65 as protection against dust and water spray in rough environments
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Optionally with control light connection for pass / fail quality control
- ▶ Functions: Weighing, taring, counting, plus / minus weighing, count check / count totaling, reference weight optimization See page 14 for other functions corresponding to compact scale Professional
- ▶ PLU memory
- ▶ The automatic reference weight optimization feature iteratively improves the average value of the part weight, thus resulting in improved counted quantity determination
- ▶ The add mode results in a more accurate quantity count by having the scale terminal verify whether the total weight of the reference parts is lower than the minimum reference weight
- ▶ With second scale interface for easy implementation of counting scale systems. Can be combined with the weighing platforms on page 60 and up
- ▶ Includes software for PLU management for unit weights, target values, count check, tare, and recipe values (compatible with Windows XP and Vista, see accessories on page 19 for matching data cable)
- ▶ Backlit LC display (dimmbable), character height: 16 mm
- ▶ Realtime clock with date
- ▶ Power supply mode: 100 – 240 V / 50 – 60 Hz, UK power adapter see options

- ▶ Weighing platform: Stainless steel 1.4301
Base frame: powder coated steel, terminal housing: Plastic
- ▶ Scale dimensions / scale weight:
310 x 355 x 70 mm, 6 kg
400 x 380 x 75 mm, 10 kg
520 x 480 x 75 mm, 20 kg
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Nominal operating temperature: -10°C to 40°C

Options

All interfaces can be customized with our PC service software, Order No.: 2564.10.001:

- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002
- ▶ Ethernet interface installed, Order No.: 2563.45.002
- ▶ USB interface installed, Order No.: 2563.47.002
- ▶ Bluetooth™ interface installed, Order No.: 2563.12.001
- ▶ Alibi software installed, Order No.: 2792.20.002
- ▶ Rechargeable battery pack installed for mains-independent operation, operating time: ca. 30 hours (depends on settings), charging time: 5.5 hours, Order No.: 2557.40.002
- ▶ Control light, 4 lights, Order No.: 2551.04.001
- ▶ Control light, 3 lights, Order No.: 2551.50.002
- ▶ UK power adapter, Order No.: 2557.25.002
- ▶ US power adapter (on request)

Other features and additional options, see compact scales Professional on page 14

Optional

Counting bench scales Professional 9540, 9541, 9542

With separate terminal

Features

- ▶ Bench scale with separate display and 2.5 m cable, includes wall bracket
- ▶ High-resolution single-range scale, not approvable
- ▶ Terminal with 12-key operator control and customizable shortcut with user-programmable function keys
- ▶ High protection class IP 65 as protection against dust and water spray in rough environments
- ▶ Fast data transfer via integrated RS 232 interface and print function
- ▶ Optionally with control light connection for pass / fail quality control
- ▶ Functions: Weighing, taring, counting, plus / minus weighing, count check / count totaling, reference weight optimization. See page 14 for other functions corresponding to compact scale Professional
- ▶ PLU memory
- ▶ The automatic reference weight optimization feature iteratively improves the average value of the part weight, thus resulting in improved counted quantity determination
- ▶ The add mode results in a more accurate quantity count by having the scale terminal verify whether the total weight of the reference parts is lower than the minimum reference weight

Counting scale system 5800

Consists of quantity scale with reference scale

PLU software

Printer optional

Control light optional

Features

Quantity scale

- ▶ High-resolution single-range scale, not approvable
- ▶ Terminal with 12-key operator control and customizable shortcut with user-programmable function key
- ▶ High protection class IP 65 as protection against dust and water spray in rough environments
- ▶ Weighing platform with a strain-gauge load cell made from aluminum
- ▶ Mechanical overload safety to protect the load cell
- ▶ Weighing platform: Stainless steel 1.4301
Base frame: powder-coated steel
Terminal housing: Plastic
- ▶ Platform size: 400 x 300 mm
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Functions: Weighing, taring, counting, plus / minus weighing, count check / count totaling, reference weight optimization. See page 14 for other functions corresponding to compact scale Professional
- ▶ See page 55 for all other functions corresponding to compact scale Professional
- ▶ The automatic reference weight optimization feature iteratively improves the average value of the part weight, thus resulting in improved counted quantity determination
- ▶ The add mode results in a more accurate quantity count by having the scale terminal verify whether the total weight of the reference parts is lower than the minimum reference weight

- ▶ Supplied scope includes PLU software for 100 article memory, for unit weights, target values, count check, tare, and recipe values (compatible with Windows XP and Vista, required data cable, Order No. 2550.03.002)

Reference scale 2889

- ▶ Design with a strain-gauge load cell made from aluminum
- ▶ Protection class IP 65
- ▶ Mechanical overload safety to protect the load cell
- ▶ Platform made from 1.4301 stainless steel
- ▶ Base frame made from aluminum
- ▶ Height-adjustable feet
- ▶ Dimensions: 160 x 160 x 80 mm
- ▶ Measurement cable length: 3 m

Options

See accessories for compact scales on page 19 for additional options, such as control light, printer, and data cable

Order No.:	Configuration	Maximum load kg	Division g	For counting parts from g	Delivery time week

Counting scale system 5803

For professional counting applications

Features

Terminal 3035

- ▶ Protection class IP 67
- ▶ Backlit LC display, incl. wall/bench bracket 2503.30.002
- ▶ Functions: Weighing, taring, count check / count totaling, totaling / order picking, counting, checking, and more
- ▶ 4 organization data memories, e.g. for article number, customer number, or order number
- ▶ Option: Micro SD card 2792.40.002
- ▶ Database with 999 article memory locations for article number, article description, reference weight, target count, and tolerance
- ▶ 32 keys, alphanumeric data entry
- ▶ Barcode management (input and output of barcodes)
- ▶ Standard configuration includes serial RS 232 interface
- ▶ Realtime clock with date
- ▶ The automatic reference weight optimization feature iteratively improves the average value of the part weight, thus resulting in improved counted quantity determination
- ▶ The add mode results in a more accurate quantity count by having the scale terminal verify whether the total weight of the reference parts is lower than the minimum reference weight

Reference scale 2873

- ▶ Aluminum diecast housing
- ▶ Full automated self-calibration, programmable with a 24-hour cycle or when temperature changes occur (SCS)
- ▶ Stabilization time: 1 to 1.5 seconds
- ▶ Dimensions: 228 x 381 x 90 mm

Quantity scale 2892

- ▶ High-resolution single-range scale
- ▶ Powder-coated steel design in extra low-profile modular construction
- ▶ Weighing platform made from 1.4301 stainless steel; removable for easy cleaning
- ▶ Strain-gauge load cell made from aluminum alloy
- ▶ Protection class IP 65
- ▶ Mechanical overload safety to protect the load cell
- ▶ Measurement cable length: 2 m
- ▶ Dimensions: 520 x 400 x 75 mm
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Operating temperature: -10 °C to + 40 °C

Options

- ▶ 2 additional serial RS 232 interfaces installed
- ▶ Ethernet interface installed
- ▶ USB interface installed
- ▶ Control light
- ▶ Data cable
- ▶ Printer
- ▶ Barcode scanner
- ▶ Alibi memory for database, 999 memory locations
- ▶ Application software, Order No.: 2564.12.002

See accessories for terminal 3035 on pages 107-109 for additional options

Order No.:	Configuration	Maximum load kg	Division g	For counting parts from g	Delivery time week
5803.01.001	Terminal 3035.01.001 Quantity scale 2892.05.040 Reference scale 2873.50.001	60,000 6,200	2 0,1	6 0,3	1

Different models and dimensions available on request.

Counting and control scale **SC**

High-resolution for high accuracy requirements

Precision scale optional

Portable wireless scanner optional

Soehnle Professional Count and Control

Features

Weighing platform

- ▶ Very high resolution up to 75.000 d
- ▶ Fast and stable scale standstill even in unstable environments
- ▶ Newly developed filter type in the terminal software
- ▶ Modified weighing platform
- ▶ Specially calibrated load cells
- ▶ High accuracy and reproducibility
- ▶ For accurate counting, we recommend three divisions as the minimum reference weight
- ▶ Powder-coated steel design in extra low-profile modular construction
- ▶ Weighing platform made from 1.4301 stainless steel; removable for easy cleaning
- ▶ Strain-gauge load cell made from aluminum alloy
- ▶ Protection class IP 65
- ▶ Mechanical overload safety to protect the load cell
- ▶ Measurement cable length: 2 m
- ▶ Scale leveling up to 10 mm with 4 adjustable feet
- ▶ Operating temperature: -10 °C to + 40 °C

Terminal 3035

- ▶ Protection class IP 67
- ▶ Backlit LC display
- ▶ Incl. wall/bench bracket 2503.30.002

- ▶ Functions: Weighing, taring, counting, count check / count totaling, totaling / order picking, checking, and more
- ▶ 4 organization data memories, e.g. for article number, customer number, or order number
- ▶ Data backup function for fail-safe storage of data and functions via the integrated SD memory card
- ▶ Database with 999 article memory locations for article number, article description, reference weight, nominal piece count, nominal value and tolerance
- ▶ 32 keys, alphanumeric data entry
- ▶ Barcode management (input and output of barcodes)
- ▶ Standard configuration includes serial RS 232 interface
- ▶ Realtime clock with date

Options

- ▶ Stand version
- ▶ Precision scales 2873 as additional reference scale
- ▶ Optional handheld scanner or wireless scanner
- ▶ Printer (optionally as strip or label printer)
- ▶ PC application software 2564.12.002
- ▶ 2nd measuring point for filter type 3, 2554.10.004/2554.10.002, see p. 108
- ▶ Adjustment and calibration in the Soehnle Industrial Solutions DAKKS-laboratory

See accessories for terminal 3035 on pages 107-109 for additional options

Weighing system for packing tables

For error-free order picking

Example illustration. Table is not included in supplied scope.

Integrated scale

Raising and lowering mechanism

Features

- Easy order picking with weight check
- For installing or retrofitting into existing packing tables (supplied scope does not include packing table)
- Various platform sizes and weighing ranges available
- Can be combined with terminals 3010 and 3035 (incl. RS 232 interface)
- Scale is integrated into the packing table – no separate table needed
- Weighing mechanism is protected by lowering the scale below the bench surface (no ingress of foreign particles)
- Heavy physical exertion (lifting) is avoided
- Ergonomic operations due to low profile of scale
- Easy installation
- Approvable, class III

- Weighing platform made from 1.4301 stainless steel
- Integrated mechanical overload safety
- Minimum requirements for the table top: opening for scale, see table, minimum thickness: 19 mm, minimum load capacity: 80 kg
- Assembly instructions and template included in supplied scope
- Incl. wall bracket / stand bracket

Options

- See terminals 3010 and 3035 on pages 107 – 109 for printer interface, barcode scanner, control light, and other accessories

What does your weighing task look like?

Combine to meet your specific needs

Step 1

Weighing platforms

Our product line of weighing platforms gives you a choice of material for the load attachment, the platform size, the weighing ranges, and divisions you need for your application.

(details are shown in the following pages)

Step 2

Stand bracket, table bracket, or wall bracket

Decide whether you need your scale as a bench scale or stand scale, and then order the appropriate table bracket and wall bracket, or the stand from our accessories.

Step 3

Terminals

Depending on the required functional scope and deployment location, configure your scale with one of our terminals from the terminal product lines in plastic or stainless steel.

Note the respective interface options and accessories to ideally integrate your weighing technology into the specific process.

Your highly customized scale: Configure your scales to your specific needs!

Do not hesitate to call us directly if you need customized dimensions, weighing ranges, and divisions to implement your weighing system.

Soehnle Industrial Solutions: +49 7191 / 34 53-220. We look forward to your call.

7. Weighing platforms

Matching for your application

Standard

Weighing platforms

- ▶ Powder-coated steel design in extra low-profile modular construction
- ▶ Weighing platform made from 1.4301 stainless steel
- ▶ Dust and water spray protection for easy cleaning and hygiene
- ▶ Strain-gauge load cell made from aluminum alloy, protection class IP 65
- ▶ Three-range scale with stainless steel load cell, protection class IP 68/69 K
- ▶ Weighing ranges: 3 – 300 kg
- ▶ Available in 5 standard sizes

Configurations for standard and stainless steel

- ▶ Three-range scales (3 x 3,000 e) – approvable, accuracy class III
- ▶ Two-range scales (2 x 3,000 e) – approvable, accuracy class III
- ▶ Single-range scales (1 x 30,000 d) – high-resolution, not approvable

Stainless steel

Weighing platforms

- ▶ Rugged stainless steel design in extra low-profile modular construction
- ▶ Weighing platform made from 1.4301 stainless steel
- ▶ Outstanding moisture and corrosion protection for extreme applications
- ▶ Three-range scale with stainless steel load cell, protection class IP 68/69 K
- ▶ Weighing ranges: 3 – 300 kg
- ▶ Available in 5 standard sizes

Weighing platform 2889

For small parts and as reference scale

Features

- ▶ Design with a strain-gauge load cell made from aluminum
- ▶ Protection class IP 65
- ▶ Mechanical overload safety to protect the load cell
- ▶ Platform made from 1.4301 stainless steel
- ▶ Base frame made from aluminum
- ▶ Height-adjustable feet and spirit level
- ▶ Measurement cable length: 3 m
- ▶ Dimensions: 160 x 160 x 80 mm
- ▶ Can be combined with all approvable Soehnle Professional terminals

Order No.:	Platform size mm	Maximum load kg	Division g	Delivery time week
2889.20.010	160 x 160 x 80	0,6 1,5	0,2 0,5	1

Configuration for ATEX zone 2 / 22 available on request

Weighing platforms Standard

For universal use

Weighing platforms 2893 and 2894

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Can be combined with all Soehnle Professional terminals and A/D converters (page 111)
- ▶ Powder-coated steel design in extra low-profile modular construction
- ▶ Weighing platform made from 1.4301 stainless steel; removable for easy cleaning
- ▶ Strain-gauge load cell made from aluminum alloy, triple-range scale: Load cell made from stainless steel
- ▶ Protection class IP 65 or IP 68/69 K (suited for high-pressure cleaning)
- ▶ Mechanical overload safety to protect the load cell
- ▶ Measurement cable length: 2.5 m
- ▶ Platform sizes: From 310 x 275 mm to 800 x 600 mm
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level
- ▶ Nominal operating temperature: -10 °C to +40 °C

Options

- ▶ Bench stand for 2890-93 (approx. height: 500 mm) powder-coated, (needs to be ordered together with the weighing platform), Order No.: 2504.09.001
- ▶ Extension cable 10 m, Order No.: 2602.01.018
- ▶ Stainless steel base frame for 2894, dimensions: 800 x 600 x 700 mm, Order No.: 2502.02.007
- ▶ Bracket for base frame for 2894, Order No.: 2502.02.008
- ▶ Mobile base frame, stainless steel, for 2892, Order No.: 2502.02.001
- ▶ Mobile base frame, stainless steel, for 2893, Order No.: 2502.02.010
- ▶ Bracket for mobile base frame, Order No.: 2502.02.002
- ▶ ATEX zone 2/22 configuration see table on page 67
- ▶ See accessories on page 77 for roller tables

Weighing platforms stainless steel

For use in food-processing and wet applications

Weighing platforms 2893 and 2894

Features

- ▶ Approvable two or three-range scale (accuracy class III) and high-resolution single-range scale, not approvable
- ▶ Can be combined with all Soehnle Professional terminals and A/D converters (page 111)
- ▶ The stainless steel weighing platforms are extremely rugged and provide outstanding protection against moisture and corrosion for extreme applications
- ▶ The simple cleaning of the scale meets elevated hygiene and food-processing standards
- ▶ Stainless steel design in extra low-profile modular construction
- ▶ Weighing platform made from 1.4301 stainless steel; removable for easy cleaning
- ▶ Protection class IP 68/69 K (suited for high-pressure cleaning)
- ▶ Load cell made from stainless steel
- ▶ Mechanical overload safety to protect the load cell
- ▶ Measurement cable length: 2.5 m
- ▶ Platform sizes: From 310 x 275 mm to 800 x 600 mm
- ▶ Scale leveling up to 10 mm with 4 adjustable feet and spirit level
- ▶ Nominal operating temperature: -10 °C to +40 °C

Options

- ▶ Bench stand for 2890-93 (approx. height: 500 mm) made from stainless steel, (needs to be ordered together with the weighing platform), Order No.: 2504.08.001
- ▶ Bench stand for 2890-93 (approx. height: 800 mm) made from stainless steel, (needs to be ordered together with the weighing platform), Order No.: 2504.08.004
- ▶ Extension cable 10 m (protection class IP 65) Order No.: 2602.01.018
- ▶ Stainless steel base frame 2894, dimensions: 800 x 600 x 700 mm, Order No.: 2502.02.007
- ▶ Bracket for base frame for 2894, Order No.: 2502.02.008
- ▶ Mobile base frame, stainless steel, for 2892, Order No.: 2502.02.001
- ▶ Mobile base frame, stainless steel, for 2893, Order No.: 2502.02.010
- ▶ Bracket for mobile base frame, Order No.: 2502.02.002
- ▶ ATEX zone 2/22 configuration see table on page 69
- ▶ See accessories on page 77 for roller tables

Information regarding the control load

Control load 2

- ▶ Oversized load consisting of three partial loads of equal size is positioned by hoist, crane, etc.
- ▶ Lowering speed not to exceed 2m/h
- ▶ Control load 2 includes control load 1

Control load 3:

- ▶ Load is positioned in a rolling manner (e.g. by forklift or vehicle)
- ▶ Traveling speed not to exceed 10 km/h
- ▶ The load consists of 2 partial loads calculated based on the load capacity (Lim)

Floor scale 7766, 2823

painted, approvable

Features

Weighing platform 2823

- ▶ Approvable, class III
- ▶ Weighing platform made from painted steel, RAL 7001
- ▶ Screw-mounted plate
- ▶ Load cell made from nickel-plated steel, protection class IP 67
- ▶ Load acceptance iaw. DIN 8119-4, control load 2
- ▶ Suited for installation at level ground or for freestanding setup
- ▶ Measurement cable length: 6m (other cable lengths on request)
- ▶ Optionally with plug-in connection to the terminal
- ▶ Can be combined with all approvable Soehnle Professional terminals

Base terminal 3010

- ▶ Stainless steel terminal, protection class IP 67
- ▶ Functions: Weighing and taring, counting, totalising, batching, withdrawal weighing, switching point programming, checking, count checking, dosing
- ▶ Easy 10-key operation
- ▶ 1 measuring point as standard
- ▶ Includes table / wall / stand bracket (swivelling)

2505.05.003	Drive-on ramp, smooth 1,000 x 1,250 x 80 mm, painted, light-gray, for platform 1,500 x 1,250 mm (length of 1,000 mm provides minimal exertion required for driving up and low grade angle)

See pages 76 / 77 for more accessories

Weighing platform 2816

Painted, approvable, robust

Features

- ▶ Approvable, class III
- ▶ Weighing platform made from painted steel
- ▶ Screw-mounted plate
- ▶ Load cell made from nickel-plated steel, protection class IP 67
- ▶ Load acceptance iaw. DIN 8119-4, control load 3
- ▶ High overload safety and maintenance-free design
- ▶ Suited for installation at level ground or for freestanding setup
- ▶ Measurement cable length: 6m (other cable lengths on request)
- ▶ Optionally with plug-in connection to the terminal
- ▶ Can be combined with all approvable Soehnle Professional terminals

Order No.:	Platform size mm	Maximum load kg	Division g	Load capacity kg	ATEX 2/22 2540.01.	Delivery time week

* ATEX zone 2/22 configuration available: 2540.01.006. For maximum loads of 3,000 kg also available as configuration with Flintec load cells. For details see page 123.
Other weighing ranges and dimensions available on request. See pages 76 / 77 for more accessories

Weighing platform 2817

Stainless steel, approvable, for chemical, pharmaceutical, and food-processing applications

Features

- ▶ Approvable, class III
- ▶ Weighing platform made from 1.4301 stainless steel, eccentric grinding
- ▶ Screw-mounted plate
- ▶ Load cells made from stainless steel, protection class IP 68
- ▶ Terminal box made from stainless steel
- ▶ Protection class IP 65 (protection class can be increased to IP 68 with potted terminal box, see accessories on page 77)
- ▶ Load acceptance iaw. DIN 8119-4, control load 3
- ▶ High overload safety and maintenance-free design
- ▶ Suited for installation at level ground or for freestanding setup
- ▶ Measurement cable length: 6m (other cable lengths on request)
- ▶ Optionally with plug-in connection to the terminal
- ▶ Can be combined with all approvable Soehnle Professional terminals

Order No.:	Platform size mm	Maximum load kg	Division g	Load capacity kg	ATEX 2/22 2540.01.	Delivery time week

* ATEX zone 2/22 configuration available: 2540.01.005. For maximum loads of 3,000 kg also available as configuration with Flintec load cells. For details see page 123.
Textured plate and other weighing ranges and dimensions available on request. See pages 76 / 77 for more accessories

Weighing platform 2818

Stainless steel, hinged platform, approvable, for elevated hygiene requirements

Features

- ▶ Approvable, class III
- ▶ Weighing platform made from 1.4301 stainless steel, hinged platform
- ▶ Load cells made from stainless steel, protection class IP 68
- ▶ Terminal box made from stainless steel
- ▶ Protection class IP 65 (protection class can be increased to IP 68 with potted terminal box, see accessories on page 77)
- ▶ Easy to clean design
- ▶ Gas compression spring made from 1.4301 stainless steel
- ▶ Load acceptance iaw. DIN 8119-4, control load 3
- ▶ High overload safety and maintenance-free design
- ▶ Suited for installation at level ground or for freestanding setup
- ▶ Measurement cable length: 6m (other cable lengths on request)
- ▶ Optionally with plug-in connection to the terminal
- ▶ Can be combined with all approvable Soehnle Professional terminals

Order No.:	Platform size mm	Maximum load kg	Division g	Load capacity kg	ATEX 2/22 2540.01.	Delivery time week

* ATEX zone 2/22 configuration available: 2540.01.005. All models also available as configuration with Flintec load cells. For details see page 123.

Textured plate, other weighing ranges and dimensions available on request. See pages 76 / 77 for more accessories

Accessories

For weighing platforms and floor scales 7766, 2823, 2816, 2817, 2818

For catalog pages 65 – 75

Order No.:	Accessories
Assembly	2510.24.001 Assembly kit for securing freestanding version, 2 kits needed per weighing platform (2 foot plates, screws, pins and washers, all platform sizes, up to 3.500 kg load capacity, 2816/2817.54.001 = Assembly kit 2510.24.001)
	2510.24.011 Assembly kit for securing freestanding version, 2 kits needed per weighing platform (2 foot plates, screws, pins and washers, platform 2.000 x 1.500 mm, up to 7.500 kg load capacity)
Assembly installation frames	2501.25.001* Assembly installation frame, painted, for platform 1,000 x 800 mm, for 1.5 t load capacity
	2501.25.002* Assembly installation frame, painted, for platform 1,250 x 1,000 mm, for 3.5 t load capacity
	2501.25.003* Assembly installation frame, painted, for platform 1,500 x 1,250 mm, for 3.5 t load capacity
	2501.25.004* Assembly installation frame, painted, for platform 1,500 x 1,500 mm, for 3.5 t load capacity
	2501.25.005* Assembly installation frame, painted, for platform 2,000 x 1,500 mm, for 3.5 t load capacity
	2501.25.008* Assembly installation frame, painted, for platform 2,000 x 1,500 x 130 mm, for 7.5 t load capacity
	2501.05.001* Assembly installation frame, 1.4301 stainless steel, for platform 1,000 x 800 mm, for 1.5 t load capacity
	2501.05.002* Assembly installation frame, 1.4301 stainless steel, for platform 1,250 x 1,000 mm, for 3.5 t load capacity
	2501.05.003* Assembly installation frame, 1.4301 stainless steel, for platform 1,500 x 1,250 mm, for 3.5 t load capacity
	2501.05.004* Assembly installation frame, 1.4301 stainless steel, for platform 1,500 x 1,500 mm, for 3.5 t load capacity
	2501.05.005* Assembly installation frame, 1.4301 stainless steel, for platform 2,000 x 1,500 mm, for 3.5 t load capacity
	2501.05.011* Assembly installation frame, 1.4301 stainless steel, for platform 2,000 x 1,500 x 130 mm, for 7.5 t load capacity
Drive-on ramps	2505.05.001 Drive-on ramp, smooth 1,000 x 800 x 80 mm, painted, for platform 1,000 x 800 mm
	2505.05.002 Drive-on ramp, smooth 1,000 x 1,000 x 80 mm, painted, for platform 1,250 x 1,000 mm
	2505.05.003 Drive-on ramp, smooth 1,000 x 1,250 x 80 mm, painted, for platform 1,500 x 1,250 mm
	2505.05.004 Drive-on ramp, smooth 1,000 x 1,500 x 80 mm, painted, for platform 1,500 x 1,500 mm
	2505.05.005 Drive-on ramp, smooth 1,000 x 1,500 x 100 mm, painted, for platform 2,000 x 1,500 mm
	2505.05.008 Drive-on ramp, smooth 1,200 x 1,500 x 130 mm, painted, light-gray, for platform 2,000 x 1,500 mm, for 7.5 t load capacity / wr 6 t
	2505.06.001 Drive-on ramp, smooth 1,000 x 800 x 80 mm, 1.4301 stainless steel, for platform 1,000 x 800 mm
	2505.06.002 Drive-on ramp, smooth 1,000 x 1,000 x 80 mm, 1.4301 stainless steel, for platform 1,250 x 1,000 mm
	2505.06.003 Drive-on ramp, smooth 1,000 x 1,250 x 80 mm, 1.4301 stainless steel, for platform 1,500 x 1,250 mm
	2505.06.004 Drive-on ramp, smooth 1,000 x 1,500 x 80 mm, 1.4301 stainless steel, for platform 1,500 x 1,500 mm
	2505.06.005 Drive-on ramp, smooth 1,000 x 1,500 x 100 mm, 1.4301 stainless steel, for platform 2,000 x 1,500 mm
	2505.06.008 Drive-on ramp, smooth 1,200 x 1,500 x 130 mm, 1.4301 stainless steel, for platform 2,000 x 1,500 mm, for 7.5 t load capacity / wr 6 t
Base frames	2502.10.002 Frame guard for all four corners, painted, weighing platform is raised by 140 mm (stainless steel configuration on request)
	2502.02.007 Stainless steel base frame 2894, dimensions: 800 x 600 x 700 (W x D x H) (height = without weighing platform), with 4 adjustable feet
	2502.02.008 Bracket for stainless steel base frame
	2502.02.001 Mobile base frame, stainless steel, for 2892
	2502.02.010 Mobile base frame, stainless steel, for 2893
	2502.02.002 Bracket for mobile base frame, stainless steel
	2502.20.001 Base frame for pallet truck transport, painted, 4 adjustable feet, spirit level, 1,000 x 800 mm**
	2502.20.002 Base frame for pallet truck transport, painted, 4 adjustable feet, spirit level, 1,250 x 1,000 mm**
	2502.20.003 Base frame for pallet truck transport, painted, 4 adjustable feet, spirit level, 1,500 x 1,250 mm**
	2502.20.004 Base frame for pallet truck transport, painted, 4 adjustable feet, spirit level, 1,500 x 1,500 mm**
	2502.20.005 Base frame for pallet truck transport, painted, 4 adjustable feet, spirit level, 2,000 x 1,500 mm**
	2502.21.001 Base frame for pallet truck transport, stainless steel, 4 adjustable feet, spirit level, 1,000 x 800 mm**
	2502.21.002 Base frame for pallet truck transport, stainless steel, 4 adjustable feet, spirit level, 1,250 x 1,000 mm**
	2502.21.003 Base frame for pallet truck transport, stainless steel, 4 adjustable feet, spirit level, 1,500 x 1,250 mm**
	2502.21.004 Base frame for pallet truck transport, stainless steel, 4 adjustable feet, spirit level, 1,500 x 1,500 mm**
	2502.21.005 Base frame for pallet truck transport, stainless steel, 4 adjustable feet, spirit level, 2,000 x 1,500 mm**
	2502.22.001 Base frame for forklift transport, painted, 4 adjustable feet, spirit level, 1,000 x 800 mm**
	2502.22.002 Base frame for forklift transport, painted, 4 adjustable feet, spirit level, 1,250 x 1,000 mm**
	2502.22.003 Base frame for forklift transport, painted, 4 adjustable feet, spirit level, 1,500 x 1,250 mm**
	2502.22.004 Base frame for forklift transport, painted, 4 adjustable feet, spirit level, 1,500 x 1,500 mm**
	2502.22.005 Base frame for forklift transport, painted, 4 adjustable feet, spirit level, 2,000 x 1,500 mm**
	2502.23.001 Base frame for forklift transport, stainless steel, 4 adjustable feet, spirit level, 1,000 x 800 mm**
	2502.23.002 Base frame for forklift transport, stainless steel, 4 adjustable feet, spirit level, 1,250 x 1,000 mm**
	2502.23.003 Base frame for forklift transport, stainless steel, 4 adjustable feet, spirit level, 1,500 x 1,250 mm**
	2502.23.004 Base frame for forklift transport, stainless steel, 4 adjustable feet, spirit level, 1,500 x 1,500 mm**
	2502.23.005 Base frame for forklift transport, stainless steel, 4 adjustable feet, spirit level, 2,000 x 1,500 mm**

Accessories

Order No.:	Description with conveyor / roller width / overall width / length / roller spacing / roller diameter
2513.00.005	Roller conveyor, transverse, lightweight construction, 270 mm / 310 mm / 275 mm / 25 mm / 20 mm, 2.5 kg preload, for weighing platform 2890.01 / 02 / 03
2513.00.006	Roller conveyor, transverse, standard, 270 mm / 310 mm / 275 mm / 35 mm / 30 mm, 5 kg preload, for weighing platform 2890.03 / 04
2513.00.010	Roller conveyor, transverse, standard, 360 mm / 400 mm / 300 mm / 50 mm / 40 mm, 5 kg preload, for weighing platform 2891.04 / 05
2513.00.011	Roller conveyor, longitudinal, standard, 260 mm / 300 mm / 400 mm / 50 mm / 40 mm, 5.5 kg preload, for weighing platform 2891.04 / 05
2513.00.003	Roller conveyor, transverse, standard, 480 mm / 520 mm / 400 mm / 50 mm / 40 mm, 7 kg preload, for weighing platform 2892.04 / 05 / 06
2513.00.004	Roller conveyor, longitudinal, standard, 360 mm / 400 mm / 520 mm / 50 mm / 40 mm, 7.5 kg preload, for weighing platform 2892.04 / 05 / 06
2513.00.007	Roller conveyor, transverse, standard, 620 mm / 660 mm / 550 mm / 55 mm / 50 mm, 17 kg preload, for weighing platform 2893.05 / 06
2513.00.008	Roller conveyor, longitudinal, standard, 510 mm / 550 mm / 660 mm / 55 mm / 50 mm, 18 kg preload, for weighing platform 2893.05 / 06
2513.00.009	Roller conveyor, longitudinal, standard, 560 mm / 600 mm / 800 mm / 62.5 mm / 50 mm, 24 kg preload, for weighing platform 2894.06 / 07
2510.24.006	Assembly plate versions for ramps, drive-on side, up to 1,500 mm (version in V4A on request)
2516.01.002	Terminal box in protection class IP 68, potted
2602.01.018	Cable extension for weighing platforms with terminal box with one load cell 2890-93 (2816, 2817, 2818, 2823, 2814, 2825, 2815)
2550.05.007	Identchip in terminal box with 10 m cable (When ordering in combination with a weighing platform)

* not including assembly (please ask for footing plans for installing the assembly frame). Other requirements on request.

** Height of the base frames +/- 20 mm adjustable

Images Accessories

Assembly installation frame, complete with foot plates, screws, pins, and washers

Assembly kit to secure the freestanding scale

Ramming guard

Drive-on ramps (length of 1,000 mm provides minimal exertion required for drive-on and low grade angle)

Base frame for pallet truck transport

Base frame, forklift transport

Roller conveyor, snap-on

Roller conveyor, longitudinal

Roller conveyor, transverse

Multi-functional scale 7708, 7808

For mobile use

Terminal 3700

Terminal 3710

Features

- ▶ Approved class III, or not approvable
- ▶ Weighing platform made from aluminum, painted white
- ▶ Portable with two rollers and handle
- ▶ Easy to operate terminal
- ▶ Includes wall bracket
- ▶ Scale weight: 16 kg
- ▶ Battery mode supports flexible use at different locations
- ▶ Energy-efficient due to integrated Auto-off function of the rechargeable battery with adjustable timer from 1 – 30 minutes or continuous operation
- ▶ Terminal 3700 Basic: Integrated rechargeable battery with plug-in power supply 100 – 240 V / 50 – 60 Hz, Rechargeable battery operating time: 50 hours (depending on settings)
- ▶ Protection class IP 42

Order No.:	Configuration	Platform size mm	Maximum load kg	Division g	Delivery time week
Approvable					
7708.60.002	With terminal 3710 Standard	880 x 840 x 55	300	100	1

Illustration: Painted variant

Features

- ▶ Approvable, class III
- ▶ Robust steel structure
- ▶ Low drive-on height (max 17 mm)
- ▶ Load-capacity: 1,500 kg
- ▶ Drive-on ramps for easy drive-on with load
- ▶ With foot plate to secure the scale (painted configuration)
- ▶ Measurement cable: 6m (other cable lengths on request)
- ▶ Stainless steel configuration: Load cell stainless steel, protection class IP 68
- ▶ Painted configuration: Load cell nickel-plated steel, protection class IP 65
- ▶ Terminal box protection class IP 65 (*overall protection class can be increased to IP 68 with potted terminal box, see accessories on page 77)
- ▶ Optionally with plug-in connection to the terminal
- ▶ Can be combined with all approvable Soehnle Professional terminals

Drive-through scale 2814

Approvable

Illustration: Incl. drive-on-ramps (optional)

Features

- ▶ Approvable, class III
- ▶ Robust steel structure
- ▶ Low drive-on height (max 50 mm)
- ▶ Load-capacity: 1.500 kg
- ▶ Drive-on ramps for easy drive-on with load, length: 500 mm (optional)
- ▶ Measurement cable: 6m (other cable lengths on request)
- ▶ Stainless steel configuration: Weighing platform made from 1.4301 stainless steel, glassbead-blasted, load cell made from stainless steel, protection class IP 68
- ▶ Painted configuration: load cell: nickel-plated steel, protection class IP 67
- ▶ Terminal box protection class IP 65 (*protection class can be increased to IP 68 with potted terminal box, see accessories)
- ▶ Foot plates for fixing the scale / ramps included
- ▶ Optionally with plug-in connection to the terminal
- ▶ Can be combined with all approvable Soehnle Professional terminals

Drive-through scale 2825

Stainless steel, hinged platform, approvable, for elevated hygiene requirements

Illustration: Incl. drive-on ramp and drive-through stop (optional)

- Features
- Approvable, class III

► Weighing platform made from 1.4301 stainless steel, hinged platform

► Load cells made from stainless steel

► Terminal box protection class IP 65 (protection class can be increased to IP 68 with potted terminal box, see accessories)

► Easy to clean design, hygienic design

► Gas compression springs made from 1.4301 stainless steel

► Load acceptance iaw. DIN 8119-4, control load 3

► The special pivot point design allows the scale to be positioned directly on a wall with the rear side facing

► To drive-on or drive-over

► Drive-on ramps for easy drive-on with load, length: 489 mm (see accessories)

► Measurement cable length: 6 m (other cable lengths on request)

► Optionally with plug-in connection to the terminal

► Can be combined with all approvable Soehnle Professional terminals

Pallet truck scale 9761

The mobile solution for your logistics process

Features

- ▶ Tilt sensor: weighing with up to 10% tilt to all sides (approvable configuration)
- ▶ Rechargeable battery mode: Supplied scope includes one rechargeable battery, 12 V – 1.2 Ah
- ▶ Weighing operating time: 8 – 10 hours (with WLAN module 4 hours)
- ▶ Power supply with charging function, 100 – 240 V, 50 / 60 Hz
- ▶ Steel housing to protect the terminal
- ▶ Base terminal, protection class IP 65
- ▶ Four strain-gauge load cells, protection class IP 67
- ▶ Tandem rollers made from polyurethane
- ▶ Steering rollers made from polyurethane
- ▶ Dimensions: 1.600 x 580 x 1.220 mm
- ▶ Fork length: 1,200 mm
- ▶ Minimum fork clearance: approx. 93 mm
- ▶ Lift height: 19 cm
- ▶ Scale weight: 135 kg

Base terminal 3010

- ▶ Functions: Weighing, taring, counting, checking, totaling
- ▶ Housing made from 1.4301 stainless steel
- ▶ Optimized legibility due to backlit LC display
- ▶ Simple process integration with interfaces
- ▶ Integrated LED control light for check weighing

Options

- ▶ Interchangeable rechargeable battery (1 rechargeable battery included in supplied scope), 12 V, 1.2 Ah, (Order No.: 2557.30.002), charging time 4-5 hours
- ▶ Bluetooth™ portable printer (thermo printer) for mobile use
- ▶ Data transfer via WLAN or Bluetooth™

	Plug-in interface with ID chip installed, approvable section point between compact and second scale*	2550.			05.002
Interfaces/Data cables	 RS 232 IT interface installed, 9 pin (not decoupled)*	2563.	21.004		
	 IT data cable for Basic and Standard 3 m, 9 pin, data cable for Professional 2 m, 5 pin – 9 pin (for not decoupled interface)	2550.	03.014	03.014	
	 RS 232 IT interface installed, 5 pin (decoupled)*	2563.		21.002	21.002
	 IT cable 2 m, 5 pin – 9 pin, (for decoupled interface)	2550.		03.002	03.002
	 IT cable 2 – 10 m, 5 pin – 9 pin, (for decoupled interface)	2550.		00.008	00.008
	USB interface installed*	2563.			47.002
	USB data cable 2 m	2550.			03.011
	USB / second display interface, incl. 3 m USB cable*	2563.		47.004	
	Ethernet interface installed, incl. 10 m patch cable* (not combined with rechargeable battery pack)	2563.		45.002	45.002
	WLAN module configured (only in conjunction with installed Ethernet interface)*	2563.		10.004	10.004
	Bluetooth™ interface installed*	2563.		12.001	12.001
Printers	Label printer with cut-off device, print width up to 104 mm (thermo-direct)	2795.		12.001	12.001
	Label printer, print width up to 108 mm (thermo-direct)	2795.		20.001	20.001
	Tape printer, paper width up to 76 mm (9 pin)	2795.		14.001	14.001
	 Printer cable 2 m, 9 pin – 25 pin, (for not decoupled interface)	2550.		03.015	
	 Printer cable 1.8 m. 9 pin (printer 2795.20.001)	2550.		03.030	
	 Printer cable 5 pin – 25 pin, (for decoupled interface)	2550.		03.007	03.007
	 Printer cable 5 pin – 25 pin, 2 – 10 m (for decoupled interface)	2550.		00.009	00.009
Displ./Contr. light	Second display installed, protection class IP 65, dimensions: 270 x 85 x 58 mm, cable 2 m, 5 pin plug, incl. interface, no backlighting, power supplied by scale*	2562.		70.002	70.002
	Large display LED 100 mm, 5 pin plug with 15 m cable	2562.		01.003	01.003
	Second display LED 38 mm, 5 pin plug with 15 m cable	2562.		12.001	12.001
	Control light, 4 lights*	2551.		04.001	04.001
	Control light, 3 lights*	2551.		50.002	50.002
Software	PC service software (print image design, data record, printer setup)	2564.		10.001	10.001
	Scale Connecting, software for transferring scale data to PC-based software	2564.		20.002	20.002
	Scale Connecting Plus, extensive software for transferring scale data to PC-based software (with activation code)	2564.	20.005	20.005	20.005
	Pricing software	2564.		50.001	
	Software for linking scale to SAP R/3, via RS 232, USB or Ethernet	2564.		20.006	20.006
Miscellaneous	Keyboard wedge USB, for RS 232 scale interface to PC USB interface (additionally required data cable 2550.03.011, 9 pin connection 37xx - PC)	2563.	00.008	00.008	00.008
	Rechargeable battery pack installed for mains-independent operation* (not combined with ethernet interface)	2557.		40.001	40.002
	UK power adapter	2557.	25.002	25.002	25.002
	Name plate, blank (only for second scale interface Professional)	2512.			06.001
	Name plate, with entries	2512.		06.002	06.002

Please include the Order No. + P No. when placing your purchase order.

* Any required options must be included in the purchase order. Retrofits are not possible.

Accessories: Possible combinations

Possible combinations Terminal Standard 3710

Option / Interface	Can be combined with the following options							
	Measuring point 1	RS 232 not decoupled	RS 232 decoupled	Ethernet	USB	USB / Second display	Bluetooth	Control light
RS 232 not decoupled	●	■	◇	◇	◇	◇	◇	○
RS 232 decoupled	●	●	■	■	■	■	■	○
Ethernet	●	●	■	■	■	■	■	○
USB	●	●	■	■	■	■	■	○
USB / Second display	●	●	■	■	■	■	■	○
Bluetooth	●	●	■	■	■	■	■	○
Control light	●	●	◇	◇	◇	◇	◇	■
Rechargeable battery	●	●	◇	■	◇	■	◇	■

- Included as standard
- Option can be used at any time
- ◇ No further options can be connected
- Combination not possible

Possible combinations Terminal Professional 3720

Option / Interface	Can be combined with the following options							
	Measuring point 1	Measuring point 2	RS 232 not decoupled	RS 232 decoupled	Ethernet	USB	Bluetooth	Control light
RS 232 not decoupled	●	●	■	△	△	△	△	○
RS 232 decoupled	●	●	●	■	◇	◇	◇	○
Ethernet	●	●	●	◇	■	◇	◇	○
USB	●	●	●	◇	◇	■	◇	○
Bluetooth	●	●	●	◇	◇	◇	■	○
Control light	●	●	●	△	△	△	△	■
Rechargeable battery	●	●	●	△	■	△	△	■

- Included as standard
- Option can be used at any time
- △ One additional option can be connected
- ◇ No further options can be connected
- Combination not possible

Base terminal 3010

For rough environments

Weighing and taring
Counting
Totalising
Order picking
Withdrawal weighing
Dynamic switching
Checking
Count checking
Dosing

Features

- ▶ Approvable, class III, resolution up to 10.000 e
- ▶ Wägebereich 0 – 120.000 kg
- ▶ Protection class IP 40 or IP 67
- ▶ Backlit LC display, character height: 16 mm
- ▶ Three LEDs red / yellow / green as control lights
- ▶ Easy 10-key operation
- ▶ Functions: Weighing and taring, counting, totalising, order picking, withdrawal weighing, dynamic switching, checking, count checking, dosing
- ▶ 1 measuring point included, second measuring point optional
- ▶ Integrated power supply, 100 – 240 V AC, 50 – 60 Hz

Housing

- ▶ Compact housing made from 1.4301 stainless steel, protection class: IP 40, for dry operating conditions
- ▶ protection class IP 67, suited for rough operating conditions
- ▶ Optionally available as control cabinet version
- ▶ Integrated power supply, cable fed via sealed cable gland
- ▶ Pressure is compensated by gas-permeable membrane (IP 67)

Connectivity options

- ▶ Up to two analog measuring points can be connected internally
- ▶ Approvable resolution up to 10.000 e / 3 x 3.000 e with corresponding load cells
- ▶ Barcode scanner can be connected via RS 232
- ▶ Second display

Interfaces

In total up to 3 peripheral devices can be connected to Terminal 3010. The following interfaces are optionally available:

- ▶ Serial interfaces RS 232, RS 422, RS 485
- ▶ USB-interface
- ▶ Ethernet
- ▶ Profibus DP / Ethernet IP
- ▶ I/O card with variable function application, 4 inputs and 6 outputs
- ▶ Analog output

Approvable alibi memory via data memory

- ▶ Micro SD card with 4 GB storage capacity for 2 million entries (optional)

ATEX zone

- ▶ The Basic Terminal 3010 is optionally available as ATEX version for use in ATEX zone 2/22

Order No.:	Configuration	Delivery time week
3010.02.001	Protection class IP 40	1
3010.02.002	Protection class IP 67	1
3010.02.003	Protection class IP 67, ATEX zone 2/22	1
3010.32.001	Control cabinet, built-in, protection class IP 42	1
3010.22.001	Mobile, with rechargeable battery, protection class IP 67	1

Optional

Terminal 3025

For various applications

Weighing and taring
Totalising and order picking
Counting and count checking
Checking
Dynamic switching

Features

- ▶ Approvable, class III, up to 10.000 e
- ▶ Protection class IP 67
- ▶ 5 application programs: Weighing and taring, totalising and order picking, counting and count checking, checking, dynamic switching
- ▶ Fixed value memory for 999 fixed values per memory (option)
- ▶ 4 organization data memories, e.g. for article number, customer number, or shipping ticket number, 6 lines with 35 characters each
- ▶ Barcode management with 10-fold filter and multiscan function

Housing

- ▶ Compact housing made from 1.4301 stainless steel, protection class IP 67, suited for rough operating conditions
- ▶ Integrated power supply, 100 – 240 V, 50 60 Hz
- ▶ Pressure is compensated by gas-permeable membrane

Display & Tastatur

- ▶ Easy-to-read 3.5" TFT colour display (QVGA 320 x 240 pixels)
- ▶ Adjustable background color (green, white, light blue, yellow, blue, magenta and red), backlight dimmable from 30 - 100%
- ▶ Control function as control light
- ▶ Large weight display with 20 mm height
- ▶ Membrane keypad with alphanumeric key input for a convenient operation

Connectivity options

- ▶ Up to 2 analog weighing platforms can be connected
- ▶ Approvable resolution up to 10.000 e/3 x 3.000 e with corresponding load cells
- ▶ A digital reference scale can be connected via RS 232 interface

Interfaces

A total of up to 6 devices (digital reference scale, scanner, data logger, printer, etc.) can be connected to the 3025 terminal. The following interfaces are optionally available:

- ▶ 3 serial interfaces RS 232 / RS 422 / RS 485 (pluggable)
- ▶ 1 USB interface for PC keyboard, EDP, printer, data logger, keyboard wedge, etc.
- ▶ 1 Ethernet interface
- ▶ 1 Bluetooth interface (pluggable)
- ▶ 1 I/O card with 4 inputs and 6 outputs

USB applications available

for connections as

- ▶ PC keyboard
- ▶ Keyboard wedge
- ▶ Tape and label printers
- ▶ Dataloggers via USB stick
- ▶ IT integration

Further functions

- ▶ User password with login function
- ▶ IT management
- ▶ Remote Maintenance / Analysis

Options

- ▶ Memory card (Micro SD card) for alibi storage with a capacity for 2 million entries, as well as for the storage of fixed values and for the installation of software updates and for data backup
- ▶ Application software for data maintenance of read-only memories
- ▶ Relay box for voltages up to 250 V / 3 A (AC) and 24 V / 3 A (DC)
- ▶ Further options see accessories list on page 107-109

Order No.:	Configuration	Delivery time week
3025.01.001	Terminal with RS232 incl. internal measuring point	1
3025.01.002	Terminal with USB incl. internal measuring point	1

Expected to be available from March 2019

Terminal 3035

For complex applications

Weighing and taring
Totalising and order picking
Counting
Checking
Classifying
Recipe weighing
Neutral measuring
Vehicle weighing
Dynamic switching
Percent weighing

Features

- ▶ Approvable, class III, up to 10.000 e
- ▶ Protection class IP 67
- ▶ 10 application programs: Weighing and taring, totalising and order picking, counting, checking, classifying, recipe weighing, neutral measuring, vehicle weighing, dynamic switching, percent weighing
- ▶ 32 keys, alphanumeric data entry
- ▶ Fixed value memory for 999 fixed values per memory (option)
- ▶ 4 organization data memories, e.g. for article number, customer number, or shipping ticket number, 6 lines with 35 characters each
- ▶ Barcode management

Housing

- ▶ Compact housing made from 1.4301 stainless steel, protection class IP 67, suited for rough operating conditions
- ▶ Integrated power supply, 100 – 240 V, 50 60 Hz
- ▶ Pressure is compensated by gas-permeable membrane

Display & keyboard

- ▶ Large color display TFT 5.7" (QVGA 320 x 240 pixels)
- ▶ Adjustable background color (green, white, light-blue, yellow, blue, magenta, and red), background lighting dimmable from 30 – 100 %
- ▶ Control function as control light
- ▶ Large weight display with 20 mm height
- ▶ Membrane keypad with 32 large keys for reliable operation

Connectivity options

- ▶ 3 internal analog measuring points possible
- ▶ A digital reference scale can be connected via RS 232 interface
- ▶ Up to 29 measurement locations in total
- ▶ Approvable resolution up to 10.000 e/3 x 3.000 e with corresponding load cells
- ▶ Barcode scanner can be connected via RS 232 interface
- ▶ External PC keyboard via USB

Interfaces

- ▶ 1 RS 232 data interface or USB included
- ▶ Other interfaces are optionally available (e.g. RS 232, RS 422, RS 485)
- ▶ Various fieldbus couplings such as Profibus DP, certified ProfiNET interface with module module for the SPS connection
- ▶ Printers, control and inventory management systems can be integrated

Barcode management

- ▶ With 10x filter and multi-scan function

14

Optional

Terminal 3035

USB applications available

for connections as

- ▶ PC keyboard
- ▶ Keyboard wedge
- ▶ Tape and label printers
- ▶ Dataloggers via USB stick
- ▶ IT integration

Memory card

- ▶ Memory card (Micro SD card) for alibi memory with add-on field for traceability using onetime customer reference number
- ▶ Fixed value memory
- ▶ Software update

Options

- ▶ I/O card with variable function applications, 4 inputs and 6 outputs
- ▶ Application software for data maintenance of fixed value memory
- ▶ Other options, see accessory list on page 107 and up
- ▶ Wheel load weighing solution: Terminal composite scale 3035.02 and 2 additional measuring points 2554.10.002

Display configuration options for

- ▶ Color (see features)
- ▶ Control light function (see display & keyboard)
- ▶ Variable displays for various user applications in the information field or secondary display

Other new functions

- ▶ User password with login function
- ▶ IT management
- ▶ Q commands (acknowledgment or confirmation of action)
- ▶ New IT commands <H>, <G> and <I>
- ▶ Adjustment function with direct weight check and subsequent 3-fold setpoint programming during the calibration process
- ▶ Remote maintenance / analysis

Order No.:	Configuration	Delivery time week
3035.01.001	Terminal with RS 232, incl. internal measuring point	1
3035.01.002	Terminal with USB, incl. internal measuring point	1
3035.02.001	Terminal composite scale with RS 232 incl. 2 measuring points and custom software	1
3035.02.002	Terminal composite scale with USB incl. 2 measuring points and custom software	1
3035.30.001	Terminal with RS 232, control cabinet version	1
3035.01.003	Terminal with RS 232, incl. internal measuring point, ATEX zone 2/22	1
3035.01.004	Terminal with USB, incl. internal measuring point, ATEX zone 2/22	1

Application software – controlling with control light display

Accessories: Terminals with stainless steel housing

A/D converter 3005 Profi

Capturing measuring data in industrial applications

Features

- ▶ For fast processes – optimized filter
- ▶ Many interface versions available
- ▶ User-configurable transmission formats
- ▶ ABS plastic housing, protection class IP 65
- ▶ Technical weighing functions: weighing, taring, checking, switching, and dosing
- ▶ Internal resolution: 16 million parts
- ▶ Reading rate: 80 per second
- ▶ Power supply: 24 V DC
- ▶ Configuration with 3005 service software (included in supplied scope). Please order data cable for configuration.

Order No.:	Configuration	Dimensions	Delivery time
		mm	week
3005.01.001	A/D converter Profi, with RS 232 interface (basic)	82 x 80 x 57	1
3005.05.001	A/D converter Profi, with RS 232 interface and Profibus DP	160 x 80 x 57	1
3005.06.001	A/D converter Profi, with RS 232 interface and I/O module	160 x 80 x 57	1
3005.00.002	A/D converter Profi with interface bluetooth and antenna	82 x 80 x 57	1
2506.40.001	A/D converter Profi, integrated in stainless steel weighing platform 2890, incl. power supply	platform: 310 x 275 x 90	1
2506.40.002	A/D converter Profi, integrated in stainless steel weighing platform 2891, incl. power supply	platform: 400 x 300 x 90	1

Order No.:	Accessories
2563.21.002	RS 232 interface (opto-decoupled), installed
2563.21.001	RS 232 interface (opto-decoupled), as installation kit
2550.03.002	Data cable, 9 pin connector 3005 – PC, cable length: 2 m
2550.00.008	Data cable, 9 pin connector 3005 – PC, cable length: 2 – 10 m
2563.47.002	USB interface installed
2563.47.001	USB interface, installation kit
2550.03.011	USB data cable, connector 3005 – PC, cable length: 2 m
2563.65.002	Ethernet interface, incl. 10 meter Ethernet cable and RJ 45, installed
2563.65.001	Ethernet interface, incl. 10 meter Ethernet cable and RJ 45, installation kit
2510.00.006	Top hat rail installation adapter for 3005.01.001
2510.00.007	Top hat rail installation adapter for 3005.05.001 and 3005.06.001
5908.08.002	Power supply for A/D converter 3005, installed 24V/220 mA

Analog amplifier CPJ

Capturing measuring data in industrial applications

Features

- ▶ The CJP can be used to connect 4 load cells with 350 Ω
- ▶ 4 or 6 conductor technology
- ▶ Output voltage: + / -10 VDC or 0 – 10 VDC
- ▶ Output current: 4 – 20 mA
- ▶ Signal filtering
- ▶ For installation on DIN tophat rail

Order No.:	Configuration	Dimensions	Delivery time
		mm	week
2730.02.001	Analog amplifier	120 x 107 x 22.5	1

15. Software / IT integration

For transmitting scale data to IT systems

Scale Connecting

Features

- ▶ Software for transmitting scale data to PC-based software with a COM interface
- ▶ Simple and fast transmission with keystroke
- ▶ Software-independent transfer of data
- ▶ Scale values are written to the current cursor position, independent of software
- ▶ Compatible with Windows XP, Vista, Windows 7, 8 and 10

Order No.:	Configuration
2564.20.002	Scale Connecting
5751.01.002	Customized dataset formatting

Scale Connecting Plus

Features

- ▶ Software for transmitting scale data to PC-based software with a COM interface or a Telnet-Ethernet interface
- ▶ Data is transmitted from a connected scale via serial or network interface
- ▶ Flexible configuration options
- ▶ Easy operation
- ▶ Data can be routed to multiple software recipients at the same time (Excel, Word)
- ▶ Portions of the transmission can be filtered
- ▶ Can also be stored as ASCII file
- ▶ Scale can be controlled with up to 3 commands
- ▶ Compatible with Windows XP, Vista, Windows 7, 8 und 10
- ▶ User address and installation location must be indicated in the purchase order

Order No.:	Configuration
	With activation code
2564.20.005	Scale Connecting Plus

Alibi software, approvable

Features

- ▶ Approvable data memory for weighing and dimension readings
- ▶ For MS Win computers (Windows XP, Vista, Windows 7, 8 und 10, min. 32 bit)
- ▶ For devices with RS 232 interface
- ▶ Data forwarding to a host computer
- ▶ Independent of manufacturer

Order No.: Configuration

2564.01.001	Alibi software
-------------	----------------

SAP® integration

Features

- ▶ PC software to link Soehnle Professional scales to the SAP® packing table
- ▶ Connection via RS 232, USB or Ethernet

Order No.: Configuration

2564.20.006	Integration of SAP® R/3
-------------	-------------------------

Keyboard wedge

Features

- ▶ Pressing a key transmits the dataset from the scale to the cursor position
- ▶ For RS 232 scale interface to PC USB interface
- ▶ Independent of software
- ▶ Additionally required: data cable, 9 pin connection 30xx/37xx-PC (2550.03.002)

Order No.: Configuration

2563.00.008	Keyboard wedge
5751.01.002	Customized dataset formatting

Accessories for terminals

near and far range
simple LED

made in Germany

LCD kg

break-proof

Large display 2562.01.003

Capturing measuring data

Features

- ▶ Very large display with 100 mm character height and very bright characters
- ▶ 6-character display option
- ▶ Readable distance: approx. 50 m
- ▶ Aluminum housing, naturally anodized
- ▶ Weather-resistant design, protection class IP 65
- ▶ Power supply: 110 ~ 240 VAC, 50 ~ 60 Hz, cable length: 1.5 m
- ▶ Interface cable length: 15 m with 5 pin plug
- ▶ Easy link to all approvable Soehnle Professional terminals via RS 232 interface (must also be ordered)

Order No.:	Configuration	Dimensions mm
2562.01.003	Large LED display	670 x 150 x 80

Second display 2562.12.001

For reading distances up to 15 m

Features

- ▶ LED display with 38 mm character height, 6 characters
- ▶ Selectable weight unit in kg, g, lb
- ▶ Reading distances up to approx. 15 m
- ▶ Plastic housing made from impact-resistant ABS
- ▶ Protection class IP 65
- ▶ Power supply: 100 ~ 240 V AC, 50~60 Hz, external power supply, cable length: 1.5 m
- ▶ Interface cable length: 15 m with 5 pin plug
- ▶ Easy link to all approvable Soehnle Professional terminals via RS 232 interface (must also be ordered)

Order No.:	Configuration	Dimensions mm
2562.12.001	LED display	285 x 196 x 68

Second display 2562.70.002

For reading at close range

Features

- ▶ LC display with 20 mm character height, 6 characters, no backlighting
- ▶ Display housing made from plastic
- ▶ Protection class IP 65
- ▶ Incl. RS 232 interface pre-installed in the scale terminal, power supply via terminal interface
- ▶ Interface cable length: 2 m with 5 pin plug
- ▶ Includes wall bracket
- ▶ Easy link to all approvable Soehnle Professional terminals

(can only be ordered in conjunction with a terminal)

Order No.:	Configuration	Dimensions mm
2562.70.002	LC display	270 x 85 x 58

Label printer 2795.12

Features

- ▶ Thermodirect printer
- ▶ Versatile barcode, label, receipt, and ticket printer
- ▶ Printing speeds from 150 mm per second
- ▶ User-friendly paper handling
- ▶ Line & Page mode with selectable layouts
- ▶ Printing width from 104 mm to 112 mm paper width
- ▶ Paper thickness up to 150 µm
- ▶ With cut-off device
- ▶ Barcode enabled
- ▶ Graphics printing possible (e.g. logos)
- ▶ Includes power supply

Order No.:	Configuration	Dimensions mm	Delivery time week
2795.12.001	Label printer with cut-off device	213 x 180 x 148	1
2795.12.003	Label printer with cut-off device, USB*	213 x 180 x 148	1

*Only in conjunction with the Soehnle Professional Terminal 3035.

Accessories

Order No.:	Configuration
2550.03.015	Printer data cable for terminal 3710, cable length: 2 m
2550.03.007	Printer data cable for terminals 3720, 3010, 3020, 3035, 3005, cable length: 2 m
2550.00.009	Printer data cable for terminals 3720, 3010, 3020, 3035, 3005, cable length: 2 – 10 m
2550.03.028	USB printer data cable with 4 pin plug, cable length: 1.8 m
5751.01.001/004	Print format design / existing print format
2500.01.007	Thermo continuous labels, width: 80 mm, length: 50 m, VPE 6 pcs.
2500.01.006	Thermo continuous labels, width: 112 mm, length: 50 m, VPE 6 pcs.

Label printer 2795.20

Features

- ▶ Thermodirect printer
- ▶ Versatile barcode, label, receipt, and ticket printer
- ▶ Variable label sizes
- ▶ User-friendly paper handling
- ▶ Printing speeds up to max. 178 mm/s.
- ▶ Printing width: max. 108 mm
- ▶ Print resolution 203 dpi (8 dots/mm)
- ▶ RS 232 interface
- ▶ High-capacity paper rolls with feed from back
- ▶ Barcode support: barcode
- ▶ Graphic printing possible (e.g. logos)
- ▶ Transmitted light or reflection sensor for starting position detection
- ▶ End of paper sensor

Order No.:	Configuration	Dimensions mm	Delivery time week
2795.20.001	Label printer	310 x 214 x 195	1

Accessories

2500.02.003	Automatic cut-off device
2500.01.009	Label rolls, width: 112 mm, length: 50 m, 600 labels, label size: 103 x 76 mm, VPE 6 pcs.

Tape printer 2795.14

Features

- ▶ Fully graphics enabled 9-pin printer with printing speed of 3.1 lines per second
- ▶ User-friendly paper handling
- ▶ Low space requirements with storage space for external power supply below printer
- ▶ Paper widths up to 76 mm
- ▶ With tear-off edge
- ▶ Low-paper sensor
- ▶ Includes power supply

Order No.:	Configuration	Dimensions mm	Delivery time week
2795.14.001	Tape printer	240 x 160 x 155	1
2795.14.003	Tape printer, USB*	240 x 160 x 155	1

2500.15.003	Ink tape for printer 2795.14, color: black

Dot-matrix printer 2795.30

Features

- ▶ Fast 24-pin dot-matrix printer DIN A4
- ▶ Versatile single-page, continuous paper printer
- ▶ Barcode enabled
- ▶ Carbon copies: original + 3 copies
- ▶ Paper weight: 52 – 90g/sqm, width: max. 257mm
- ▶ RS 232 interface
- ▶ Paper feed: single sheet from rear, continuous paper from rear, paper output in rear
- ▶ Speed: 346 characters/second (10 cpi)
- ▶ Print width: 80 characters/line (10 cpi)
- ▶ Print resolution: 360 x 180 dpi
- ▶ Operating voltage: 200V – 240V
- ▶ Operating temperature: 5°C – 35°C
- ▶ Weight: 4,1 kg
- ▶ Shipped with ink tape, software, power supply cable

2500.15.002	Ink tape for DIN A4 printer 2795.30, color: black, set of 2

Mobile receipt printer 2795.50

Features

- ▶ Thermodirect printer
- ▶ Paper: Thermo-print paper (max. Ø 40 mm), width: 58 ± 0.5 mm
- ▶ Simple paper roll changes
- ▶ Barcodes: 1D: Codabar, ITF, UPC A, UPC B, Code 39, Code 93, Code 128, EAN 8, EAN 13, EAN 18, 2 D: QR Code, Maxi Code, PDF 417, Data Matrix
- ▶ Sleep / Auto-off function
- ▶ Includes Bluetooth™ interface 2563.12.001 installed (paired) for pallet truck scale 9761 and scale terminals 3710, 3720, 3010, 3025, 3035
- ▶ Print speed: 80 mm/s
- ▶ Resolution: 203 dpi (8 dots/mm)
- ▶ Weight (incl. rechargeable battery and paper): 293 g
- ▶ Power supply with charging function, 100/-250 V
- ▶ Rechargeable battery operating time: 8 hours of continuous operation (approx. 10 rolls at a roll diameter of 40 mm per battery charge)
- ▶ Standby: 14 hours
- ▶ Operating temperature: -50° to 50° C
- ▶ Belt loop, charger, software (included in supplied scope)

18. Precision scales

For small parts and as reference scale

programmable
percent weighing

unit weight determination

reference scale

fully automated
self calibration

dynamic weighing

Precision scale 2873

For accurate unit weight determination

Features

- ▶ BlueLINE: extremely contrast-rich blue vacuum-fluorescence display
- ▶ Aluminum diecast housing
- ▶ Full automated self-calibration, programmable with a 24-hour cycle or when temperature changes occur (SCS)
- ▶ Clock with date and time for printing law. GLP or calibration warning system
- ▶ Functions: Unit counting, percent weighing, net total recipe weighing, dynamic weighing at unsettled locations, animal weighing, density determination, various units of measure, automated reproducibility test (ART)
- ▶ Stabilization time: 1 to 1.5 seconds
- ▶ USB device and RS 232 / V24 bi-directional interfaces
- ▶ Nominal operating temperature: 0°C to 40°C
- ▶ Dimensions: 2873.30.001 228 x 381 x 124 mm [W x D x H], 2873.40.001 / 2873.50.001: 228 x 381 x 90 mm [W x D x H]
- ▶ Includes power supply: 100 V–240 V AC–18 VA, 50–60 Hz

Order No.:	Platform size	Maximum load	Division		Delivery time

Explanation of shortcuts

- CC** Output current calibration. This option facilitates wiring several load cells parallelly
- C3** Accuracy class iaw. OIML R60; for scales approvable iaw. class III, permitted number of increments e nLC = 3,000
- C4** Accuracy class iaw. OIML R60; for scales approvable iaw. class III, permitted number of increments e nLC = 4,000

- N2** Accuracy class for not approvable scales, permitted number of increments nLC = 2.000
- N2.5** Accuracy class for not approvable scales, permitted number of increments nLC = 2.500
- MR** Configuration with particularly high Y value. Suited for building multi-range scales.
- 6L** 6 conductors
- 3M** Cable length in m; quoted for 4 conductor connection, when the length deviates from standard.

- SEB** Platform load cells
- SPS** Bending/shear beam load cells
- SPT** Tensile load cells
- SCO** Compression load cells
- SDE** Double shear beam load cells
- SPB** Not approvable bending beam load cells

Approvable load cells

Load cells with OIML R60 certification, suited for use in approvable scales of class III

Platform load cells SEB, approvable

SEB22

Features

- ▶ Anodized aluminum
- ▶ Protection class IP 65
- ▶ 4 conductors
- ▶ Maximum platform dimensions:
300 x 300 mm or 350 x 250 mm
- ▶ Cable length: 0.4 m
- ▶ OIML certification
- ▶ See data sheet 470.520.056 for additional details

Order No.:	Description	Nominal load kg	Accuracy class	Y value	Delivery time week
2600.22.002	SEB22-5-C3	5	C3	7,000	2 – 3
2600.22.005	SEB22-10-C3	10	C3	7,000	2 – 3

SEB42

Features

- ▶ Anodized aluminum
- ▶ Protection class IP 65
- ▶ 6 conductors
- ▶ Maximum platform dimensions:
400 x 400 mm or 450 x 350 mm
- ▶ Cable length: 3 m
- ▶ CC version facilitates easy
parallel wiring of several load cells
- ▶ OIML certification
- ▶ See data sheet 470.520.052 (SEB42),
470.520.103 (SEB42-CC) for additional details

Order No.:	Description	Nominal load kg	Accuracy class	Y value	Delivery time week

SEB46B

Features

- ▶ Anodized aluminum
- ▶ Protection class IP 65
- ▶ 6 conductors
- ▶ Maximum platform dimensions: 500 x 500 mm or 550 x 450 mm
- ▶ Cable length: 3 m (60 – 150 kg) or 6 m (300 kg)
- ▶ Output current calibration facilitates easy parallel wiring of several load cells
- ▶ OIML certification
- ▶ See data sheet 470.520.063 for additional details

Order No.:	Description	Nominal load kg	Accuracy class	Y value	Delivery time week

2602.46.002	Load base	Ø D = 50 mm, H = 20 mm, M10 with washer	470.520.082	1

SPS34A

Features

- ▶ Nickel-plated, alloyed steel
- ▶ Protection class IP 67
- ▶ 4 conductors
- ▶ Cable length: 4 m (500 – 2,000 kg) or 6 m (2,500 – 10,000 kg)
- ▶ OIML certification
- ▶ Standard configuration with output current calibration facilitates easy parallel wiring of several load cells
- ▶ See data sheet 470.520.058 for additional details

Order No.:	Description	Nominal load kg	Accuracy class	Y value	Delivery time week

2602.34.022	Set of screws for SPS34A-5t (2 M18x70 screws and washers)		Galvanized fin, silver	–	1

SPS34B

Features

- ▶ Nickel-plated, alloyed steel
- ▶ Protection class IP 67
- ▶ 4 conductors
- ▶ Cable length: 3 m
- ▶ Standard configuration with output current calibration facilitates easy parallel wiring of several load cells
- ▶ OIML certification
- ▶ See data sheet 470.520.064 for additional details

Order No.:	Description	Nominal load kg	Accuracy class	Y value	Delivery time week
2600.34.014	SPS34B-500-C3	500	C3	10,000	1

2602.90.001	Weighing module	5 – 20	nickel-plated steel	470.520.092	2 – 3
2602.90.002	Weighing module	30 – 75	nickel-plated steel	470.520.092	2 – 3

Not approvable load cells

SEB3

Features

- ▶ Aluminum load cell
- ▶ Not approvable
- ▶ Protection class IP 54
- ▶ For point loads
- ▶ Strand length: 370 mm

- ▶ See data sheet 470.520.011 for additional details
- ▶ Minimum order quantity: 10 pcs.
- ▶ Optionally with corner calibration, on request

Order No.:	Description	Nominal load kg	Accuracy class	Y value	Delivery time week
2600.00.020	SEB3-2-N2	2	N2	for point loads, no corner calibration	1
2600.00.021	SEB3-5-N2,5	5	N2,5	for point loads, no corner calibration	1

Set of four SPB5A

Features

- ▶ Aluminum load cell
- ▶ Not approvable
- ▶ Protection class IP 54
- ▶ With overload scale stop and add-on resistors for full resistance bridge

- ▶ Force transmission: Rubber bumper with M4 thread
- ▶ Strand length: 360 mm
- ▶ Other details on request
- ▶ Minimum order quantity: 10 kits

Order No.:	Description	Nominal load kg	Accuracy class	Delivery time week
2600.02.039	Set of 4 SPB5A	60	N2	1
2600.02.040	Set of 4 SPB5A	200	N2	1

Set of four SPB5B

Features

- ▶ Aluminum load cell
- ▶ Not approvable
- ▶ Protection class IP 54
- ▶ With overload scale stop and add-on resistors for full resistance bridge

- ▶ Force transmission: Rubber bumper with support plate
- ▶ Strand length: 360 mm
- ▶ Other details on request
- ▶ Minimum order quantity: 10 kits

Order No.:	Description	Nominal load kg	Accuracy class	Delivery time week
2600.02.066	Set of 4 SPB5B	15	N2	ANF
2600.02.038	Set of 4 SPB5B	30	N2	1
2600.02.057	Set of 4 SPB5B	60	N2	1
2600.02.058	Set of 4 SPB5B	200	N2	1

Special-purpose measurement cable

Features

- ▶ 6 x 0.14 mm²
- ▶ Shielded
- ▶ PVC jacket, black
- ▶ Diameter: 5 mm

Order No.:	Description	Delivery time week
2602.00.001	Special-purpose measurement cable L = 2.4 m, exposed cable ends, pre-fabricated	1
2602.00.002	Special-purpose measurement cable L = 6 m, exposed cable ends, pre-fabricated	1
2602.00.003	Special-purpose measurement cable L = 10 m, exposed cable ends, pre-fabricated	1
2602.00.006	Special-purpose measurement cable (minimum order quantity: 25 M)	1

Terminal box

Order No.:	Description	Dimensions mm	Protection class	Delivery time week
2602.01.014	For connecting 4 load cells (incl. core end ferrules)	160 x 153 x 48	IP 65	1
2602.01.017	For connecting up to 4 load cells (incl. core end ferrules and 2 blind plugs for cable fittings, for connecting two load cells)	176 x 90 x 40	IP 65	1
2516.01.003	Wax pellets 1,000g, white, increases protection class to IP 68 (optional). For grouting the terminal boxes		IP 68	1

Force transfer

Order No.:	Description	Nominal load kg	Dimensions	Data sheet	Delivery time week
2602.04.006	Rubber element	100-2,000	Ø D = 75 mm, H = 25 mm, M12	470.520.080	1
2602.04.005	Rubber element	50-300	Ø D = 50 mm, H = 20 mm, M10	470.520.080	1
2602.04.004	Rubber element	7.5-50	Ø D = 25 mm, H = 15 mm, M6	470.520.080	1

We design analysis electronics for connecting strain-gauge load cells to exactly match your tasks.

Illustration:

Development system with concentricity for optimizing dynamic weighing and dimensioning applications

Our customized solution will assist you if you cannot find the solution for your weighing problem in the catalog, and when the weighing technology needs to be adjusted to your exact requirements.

- ▶ Does your scale need to be smaller, larger, finer in division, more robust, or needs to be integrated into a system?
- ▶ Can your problem be solved by custom weighing technology software?
- ▶ Do you need to weigh your products while moving?
- ▶ Or does the scale need to be portable?
- ▶ Do you need volumetric measurement data in addition to the weight?
- ▶ Does the scale need to be integrated into your inventory management system?

Describe us your requirements so that we may provide you with a specifically matching proposal.

21. System solutions

Customized for you

Drive-through weighing with conveyor system

Volume measurements

Portable scales

Wheel and axle load scale

Special weighing platforms / solutions

Weighing frames for integration into conveyor systems

Flight baggage scales

Accessories

ATEX zone solutions

IT, Software, and communication solutions

Dynamic weighing scales

For dynamic weighing without belt stop

Dynamic Checkweigher

Soehnle Professional has enhanced its tried-and-tested industrial weighing technology for the special requirements of continuous weighing and has re-certified it with a much finer calibration value. The product range offers from the supply of weighing components to complete solutions with weighing technology, conveying technology, control and volume measurement systems. Your advantage: You get everything from a single source!

Rationalization potential for your company

The usual procedure for statically weighing goods is not efficient when large quantities of goods have to be weighed in incoming goods, in the production process or in shipping within the material flow. Stopping the weighing material on the scales is time-consuming and labour-intensive when conveyor technology is used, and is therefore cost-intensive. The operating procedure becomes more efficient if the determination of the weight value takes place in a dynamic state, i. e.:

- ▶ Weighing without belt stop
- ▶ Conveyor, control and weighing technology from a single source
- ▶ Flexible integration capability and network connection through different bus or serial interfaces
- ▶ Can be integrated into existing production lines and conveyor systems
- ▶ High belt speed up to 2 m/s
- ▶ Weighing ranges: From 3 to 3.000 kg
- ▶ Readability from 1 g
- ▶ Resolution up to 3.200 verifiable digits
- ▶ Approved as automatic weighing instrument according to Automatic catch weigher, Automatic check weigher, Automatic weight labeler, Automatic price labeler and Automatic postal scale according to OIML R51-1
- ▶ Accuracy class XIII (1) or Y (a); XIII (2) or Y (b)
- ▶ Verification scale interval $e \geq 1$ g
- ▶ Multi-range scales
- ▶ Temperature range - 15°C.... 40°C
- ▶ Measuring of the cargo with volume measurement technology and image capture

A worthwhile investment

An important precondition for the success of a system is its economic efficiency. Due to the many rationalization possibilities, dynamic flow weighing systems pay for themselves in the shortest possible time. After a detailed analysis of your requirements, our project engineers will tell you about your savings potential.

There are already many examples of solutions available

- ▶ Letter weighing
- ▶ Volume and weight recording in the cargo and cargo area
- ▶ Calculation of freight costs in the logistics area
- ▶ Completeness control for prepackages (filling quantity control)
- ▶ 100% control e. g. during injection moulding, assembly and packaging processes

Application programs

- | | |
|-----------------------------|--|
| 1. Weighing and taring | > Pure weight determination |
| 2. Totalising | > Summing up weights in a totalizing memory |
| | > Weight recording with totalizing function |
| 3. Checking | > Pass/fail control |
| | > Comparison of the determined weight with the target weight |
| 4. Filling quantity control | > Checking according to TU/TO in statistics functions |
| 5. Classifying | > Classification into 5 weight classes |
| | > Adding up the total weight with a class assignment |

Functionalities

- | | |
|--|--|
| ▶ Specially developed high-resolution filter technology for dynamic weight determination | ▶ Speed measurement and monitoring |
| ▶ Highly-developed scale conveyor for trouble-free and fast weight determination | ▶ Double belt solution for static weighing |
| ▶ Control logic function for separation | ▶ Data concentration for weight values and product identification |
| ▶ Stop function for overlength parts | ▶ Alibi memory with product identification, subsequent overlapping data backup |
| ▶ Length measurement | ▶ Outputs for pusher when using pass/fail control or classification |

Dynamic weighing scales

Communication

- Flexible integration capability and network connection through different bus or serial interfaces
- Variable communication options, such as data transmission incl. CRC for external alibi backup
- XML interface [Customized protocol]

Offer / Options

- Highly flexible integration capability, 100% adaptable to customer requirements
- Economical solutions through cost-effective strain gauge weighing technology
- From the basic version to the complete solution with an individual, modular structure of weighing, conveying and control technology
- Continuous weigher in painted steel or stainless steel version
- Infeed and outfeed technology
- Pusher or tilt band
- Control cabinet for conveyor control system
- Vibration elements
- Barcode capture / RFID
- Camera for digital images
- Measuring of the freight units with volumetric measuring technology according to OIML guideline R129

9711.00.001 Checkweigher Medium up to 60 kg

The terminal 3035 and the DMS weighing technology enable robust and inexpensive solutions for continuous weighing. Special scale conveyor for product transport, with smooth running drive and high-strength construction for precise weighing results even with higher loads.

In legal-for-trade applications as automatic scales SWE or SKW, dynamic or as standstill scales.

The terminal 3035 is equipped with a logic control for separating products that run too close and start/stop weighing.

Applications:

Freight weighing at KEP, completeness check of packaged goods, 100% check for components, automatic weight documentation, sorting out defective products, classification according to weight classes, FPVO

Configuration	Maximum load kg	Division g	Dimensions conveyor belt cm	Working height mm	Conveying speed m/s
Basic version: Steel painted	60	20	1.600 x 1.000	800	0,2 - 2
Basic version: Steel painted	32	10	1.000 x 600	800	0,2 - 2

Versions:

Individual configuration of weighing range (from 3 kg), division (from 1 g), dimensions of conveyor belt, stainless steel for wet areas

Dynamic weighing scales

9710.00.001 Checkweigher Mini up to 3 kg

Applications:

Letter weight control, Completeness check of packaged goods, 100% control for components, automatic weight documentation, sorting out defective products, Classification according to weight classes.

Configuration	Maximum load kg	Division g	Dimensions conveyor belt cm	Working height mm	Conveying speed m/s
Basic version: Steel painted	3	1	600 x 400	800	0,2 - 2
Basic version: Stahl lackiert	6	1 2	800 x 400	800	0,2 - 2

Versions:

Individual configuration of weighing range, division (from 1 g), dimensions conveyor belt

9715.00.001 Checkweigher Maxi up to 1.500 kg

Applications:

Freight weighing, overload control, completeness control of packaged goods, automatic weight documentation, sorting out defective products.

Configuration	Maximum load kg	Division kg	Dimensions conveyor belt cm	Working height mm	Conveying speed m/s
Steel painted	1.500	0,5	1.800 x 900	400	0,2

Versions:

Individual configuration of weighing range, division, dimension of conveyor

Volume measurement

Measurement systems for volume reading, combined with weighing technology – from a simple manual workstation to a fully automated system

Measurement system 9755.51

For manual, static readings

Record dimensions with ease – accurately and quickly

The measurement system 9755.51 provides a manual, cost-effective solution for reading weight and volume of cuboid packages. The user determines the outside dimensions of the article with a scanner, while the weight is determined by the scale. The measurement process only takes a few seconds. This allows article master data to be accurately kept up to date. The integration of secondary data, such as article number or EAN code supersede the manual post-processing of manually collected article master data. Typing errors are eliminated. The recorded data can be transmitted online to a higher-level IT system or a printer. The exact, seamless knowledge of article data for warehousing, packaging, and transport can tap into previously not or inadequately accessible cost-reduction opportunities.

Features

- ▶ Capturing weight and volume data
- ▶ Calculation of volume weight
- ▶ Package dimensions are scanned on the barcode ruler with the barcode scanner, also wirelessly (option)
- ▶ Weight data is approvable, volume data are not approvable
- ▶ This allows article master data to be accurately kept up to date at all times
- ▶ Interface for printer or IT

Options

- All interfaces can be customized with our PC service software, Order No.: 2564.10.001:
- ▶ Decoupled RS 232 interface installed, Order No.: 2563.21.002
 - ▶ USB interface e.g. for keyboard wedge, Order No.: 2550.03.026
 - ▶ Ethernet interface, Order No.: 2550.03.025
 - ▶ Label printer, Order No.: 2795.12.001
 - ▶ IT data cable, Order No.: 2550.03.002

Find other accessories and options for IT integration and printer solutions on page 107.

Order No.:	Volume measurement range cm	Volume measurement interval cm	Maximum load kg	Weight / Division g	Dimensions mm
9755.51.001	B 42 x L 54 x H 51	1	60	Bis 30 kg = 10 g ab 30 kg = 20 g	600 x 450 x 650

Example measurement system, other measurement and weighing ranges are possible. We will gladly provide you with a quotation.

Measurement system 9755.60

For automated, static readings

The measurement system 9755.60 captures weight and volume data for cuboid packages.

The outside dimensions of the article are automatically determined by a scanner, while the weight is captured by the scale. The measurement process only takes a few seconds. This allows article master data to be accurately kept up to date.

The integration of secondary data, such as article number or EAN code supersede the manual post-processing of manually collected article master data. Typing errors are eliminated. The recorded data can be transmitted online to a higher-level IT or a printer. The exact, seamless knowledge of article data for warehousing, packaging, and transport can tap into previously not or inadequately accessible cost-reduction opportunities.

Features

- ▶ Capturing weight and volume data
- ▶ Accurately measures and reads the outside dimensions and the weight of articles in a user-friendly manner
- ▶ This allows article master data to be accurately kept up to date at all times
- ▶ RS 232 interface for printer or IT
- ▶ Automatically scans package dimensions with ultra-sonic sensors
- ▶ Operator control with display and keyboard

Options (for protection class IP 42)

- ▶ Interface for barcode scanner
- ▶ Barcode scanner connected by cable or wireless

Other options on request.

Order No.:	Volume measurement range mm	Volume measurement interval mm	Weight / Maximum load kg	Weight / Division kg	Approvable	Irregs
9755.60.001	600 x 600 x 900	2	50	0,02	Yes	No
9755.60.002	600 x 750 x 900	5	25	0,002	No	Yes
9755.60.003	1.200 x 1.000 x 1.000	5	60	0,05	Yes	No

Portal measurement system 9750.60

Waiting

The freight is brought to the checkpoint by forklift, a manual pallet truck, or a battery-powered pallet truck. As soon as the pallet is dropped off on a platform scale, the laser scanners of the measurement system 9750 captures the item. Length, width, height, material handling device, volume, weight, and photograph are displayed, stored, and documented. The system can also be delivered as an approvable version iaw. MID or OIML for weight and volume.

Features

- ▶ Measurement surface: 350 x 250 x 280 cm
- ▶ Weighing platform up to 250 x 250 cm, weighing range up to 7 tons
- ▶ Windows operating system, touch panel, alibi memory

Volume portal, floor scale and drive-on ramp

Ceiling module / volume, floor scale installed

Ceiling module / volume, floor scale installed, operator control

Volume measurement system 9750

For automated, dynamic readings

Active optical laser system for two-dimensional scanning and automatic detection of the volume of objects in the goods receipt, production, picking and dispatch area according to OIML R129.

- ▶ The Soehnle Professional volumetric measuring system 9750 works according to the principle of phase delay measurement. A laser beam scans the measured object and the data is registered in the receiver. The measured distance points and the transport speed are used to calculate a three-dimensional image of the object in real time. The software thus determines the volume information: Length, width and height.
- ▶ The reading system with evaluation unit, incremental encoder and data concentration, which combines weighing, volumetric and detection data, completes the measuring system.

Features

- ▶ Applications: Volume measurement, object identification
- ▶ Laser protection class 2
- ▶ Electrical supply: 24 V DC \pm 15%, max. 90 W
- ▶ Data interfaces: RS 232, RS 422 (adjustable), Ethernet interface
- ▶ Temperature range: 0°C to 40°C
- ▶ Minimum size for objects: L 50 x W 50 x H 50 mm, in any form
- ▶ Object size/division: Length: 50-2,000 mm/5 mm
Width: 50-1,000 mm/5 mm
Height: 50-1,600 mm/5 mm
- ▶ Scope of delivery: optical laser system, evaluation electronics, data concentration and software
- ▶ Speed: 0.5 m/s to 2.0 m/s

Volume measurement system 9751

The 9751 volume measuring system based on light grid solves demanding applications in the field of object measurement. Based on light grids, it enables precise determination of the smallest enveloping cuboid of objects, regardless of their surface condition. Especially transparent and foil wrapped objects are reliably measured.

- ▶ Less expensive alternative to 9750
- ▶ Light grid frame (transmitter/receiver principle)
- ▶ Integration in band gaps
- ▶ Cubic and irregular objects
- ▶ Object dimensions min. L 50 x W 50 x H 5 mm to max. L 2,600 x W 1,200 x H 1,200 mm
- ▶ Verifiable according to OIML R129

Gravimetric dosing

For system-based weighing and dosing – components or complete solutions

Complete filling/dosing line for fire extinguishers

Flexible integration options, network integration, along with maximum system accuracy of the Soehnle Professional scale terminals ensure accurate control and fast weighing and dosing processes.

Vegetable slicer with dosing scale

Example – basic dosing line 3010

Basic solution for a dosing task with rough and precision stream, including automated lag optimization: A base terminal 3010 with I/O card is sufficient to implement this filling station.

Example – complex dosing line

Fully automated weighing and dosing system, consisting of 4 Soehnle weighing units, with PLC control and bus integration for preparing recipes as removal weighing from 4 storage containers.

Example – bigbag weighing

Example: Weighing platform with bigbag suspension and integrated vibrator to densify the filled material.

Gravimetric dosing

Terminals with dosing function

Base terminal 3010

- ▶ Three LEDs red / yellow / green as control lights
- ▶ I/O card with variable function application, 4 inputs and 6 outputs
- ▶ Analog output, Profibus interface, Profinet interface
- ▶ Application software for single-component dosing with rough/fine flow control and overrun correction

Terminal 3035

- ▶ Display with control light function
- ▶ I/O card with variable function application, 4 inputs and 6 outputs
- ▶ Profibus interface, Profinet interface

A/D converter 3005

- ▶ For fast processes when no display and keypad is required
- ▶ I/O card with variable function application, 4 inputs and 6 outputs
- ▶ Profibus interface

Load cell modules for silo weighing – single shear beam SPS34 with installation module

- ▶ Simple assembly without dummy load cell
- ▶ Nominal load up to 10 tons
- ▶ Self-centering force transmission
- ▶ Integrated lift-off safety
- ▶ Horizontal swing safety
- ▶ Tilt safety for horizontal forces, e.g. wind loads (custom configuration)
- ▶ Metal parts are electro-galvanized
- ▶ Robust design

Checking

For partially and fully automated processes

- ▶ Control functions are also provided by terminals 3035, 3010, 3720 and 3710
- ▶ Pass – Fail – Control
- ▶ Dynamic weighing, lockout with pusher, switch gate or compressed air
- ▶ Classification
- ▶ Completeness check, overload check
- ▶ Pick/Place check

Application examples

Drive-through scale with conveyor for pass / fail checking

- ▶ Check is performed inline without conveyor stop incl. pusher
- ▶ Conveyor, check/weighing technology from a single source
- ▶ Can be integrated into existing production lines and conveyor systems
- ▶ 100 % check on injection-molded parts, in assembly/packaging processes

Supplied scope:

- ▶ 3035 terminal software with drive-through weighing software
- ▶ Accessories for 3035: I/O card, wall/stand bracket, relay box with power supply
- ▶ Weighing module with strain-gauge weighing cells
- ▶ Complete conveyor system with control module, motor, conveyors specifically designed for weighing technology applications for industrial use
- ▶ Pusher for screening out parts with incorrect weight
- ▶ Base frames to adjust the desired working height

Pass / Fail check scales with integrated conveyor

- ▶ Weighing system with conveyor belt for static weight control
- ▶ Pass/fail sorting by conveyor belt with right and left rotation
- ▶ Semi- and fully automatic operation possible, also suitable for supporting manual control processes
- ▶ Individual configuration of weighing range, resolution and conveyor belt dimensions

Applications

- ▶ Individual weight control of production parts
- ▶ Completeness control of packaged products
- ▶ Classification into two weight classes

Advantages:

- ▶ 100 % product control with error-free selection
- ▶ Easy to use
- ▶ Very easy to read, display with coloured control light function
- ▶ Fast weight determination for high throughput
- ▶ Modular design, individually adaptable
- ▶ Various weighing ranges and conveyor belt sizes
- ▶ Fast product change due to product memory

Maximum load/Division:

- ▶ 3.000 g with 1 g
- ▶ 6.000 g with 2 g
- ▶ 15.000 g with 5 g

Belt dimensions:

From (LxW) 300 x 200 mm to 1.000 x 400 mm

Procedure for checkweighing:

The test piece is placed on the scale conveyor, the scale determines the weight and discharges to the left or to the right depending on the test result.

Terminal:

Soehnle Professional 3035 with colour display, control function, 999 memory locations for setpoints, interfaces: serial, USB, Ethernet, I/O switching output

Equipping the scale:

Manual or automatic via infeed belt, robot, ascending conveyor

Options:

Display stand, windbreak, printer

Mobile scales

For customized requirements

Scales on mobile base frame, mobile truck or transport carriages; there are many options for using mobile weighing technology. We supply the complete system, including the mobile power supply for the scale and peripheral equipment.

Using our tilt sensor, any elaborate leveling at the new location can be eliminated for applications with approval mandate. The patient weight can be determined even for ambulance-based emergency medical applications using the gurney carriage in the ambulance.

Shipping scale on mobile base frame with 2.000 mm long roller table

Scale on stainless steel base frames with single-sided roller axle

Double scale on mobile frame with rollers, barcode scanner and battery power

Order picking scale on mobile base frame

Floor scale with transportation frame for forklifts or pallet trucks

Patient scale in the ambulance

Stainless steel scale with mobile frame and display stand

Wheel and axle load scale

For weighing vehicles, machinery, containers, and superstructures

We offer customized design and performance figures for the scale
The scale can also be used to weigh machinery and superstructures.

- ▶ 2 or 4 mobile platforms
- ▶ As overall weight / axle load / wheel load scale
- ▶ Various platform sizes and weighing ranges available

Example: 4 load plates can be interconnected into an overall weight scale

Scale terminal in carrying case

				1		40
02	Brutto	2405 kg	03	Brutto	1767 kg	
04	Brutto	2372 kg	05	Brutto	1779 kg	
8324 kg						Brutto
Max	12000 kg	Min	20 kg	e=	1 kg	
Tara	Add		Multi	%	Achs-	
Fix	Tara		Tara		last	

Example: Display for wheel load scale; the readings for the 4 connected platforms are displayed individually

Special weighing platforms / solutions

Gas bottle scale, extremely robust, with integrated ramp

Structure of gas bottle scale

*Weighing platform 2894.00 for large platforms with high resolution
Weighing platform 800 x 600 mm platform size and an approvable maximum load of 15 kg.*

Stainless steel scale with drive-over protection for roller containers

Heating housing for scales operation in deep-freeze warehouses

Pallet scale for different pallet sizes

Stainless steel scale hinged in special dimensions

Weighing platform 600 x 500 mm, 800 kg, mobile with castors

Overhead track scale. Special construction for adaptation to structural conditions

*Base frame with weighing platform
Special dimensions, long and narrow, for perfect integration into a worktable.*

Scissor lift table with scale technology. A commercially available lift table is mounted onto the scale. Can also be installed in-ground. Load is lifted and then weighed. We can supply the scale for an existing lift table, but also complete solutions, including custom sizes.

*Scissor lift table with weighing technology
Scale with roller conveyor mounted on lifting table.*

Approvable heavy-duty weighing platform 2810

For dimensions up to approx. 7.000 x 3.000 mm, weighing ranges up to approx. 20 t

Our engineers develop the ideal design based on customer requirements for the platform size, weighing range, load capacity, ability to drive over, and control load. In addition to relying on static calculations and strength modeling with finite element methods, this also involves reliance on a substantial knowledge base.

The scales can be supplied in painted steel, hot-dip galvanized or stainless steel.

Heavy-duty scale

Heavy-duty scale with opened plate

Load placement onto heavy-duty scale with special-purpose transport

Heavy-duty scale with transport frame

Finite element modeling

Floor scale calibration

Floor scale overlength
Two-piece construction for bolting to the installation site

Load beams overlength
3000 mm long

Weighing frames for integration into conveyor systems

Weighing frames in various versions

for accurately matched integration into conveyor systems with roller tables or ball transfer tables for manual transportation or in powered driven conveyor systems. Application examples: target value checking, overload checking, order picking, filling, dosing

Weighing frames 289x

Customized sizes and weighing ranges are available based on standard bench scales. These scales are available as cost-effective integration solutions for conveyor systems.

Base frame with stainless steel weighing platform

Ball table mounted on weighing platform

Weighing platform with roller conveyor and underframe

Weighing frames 2885

Constructed from square tubing with one strain-gauge load cell. Customer-specific platform dimensions up to 1.000 x 600 mm, load capacity up to 250 kg

Weighing frame 2885

Weighing frame 2885 with base frame prepared for the reception of customer-specific conveyors

Weighing frames 2819.40

Cost-effective solution consisting of one load frame, also for sizes up to 2.000 mm

Weighing frame 2819.40

Weighing frame 2819.40 mounted gravity roller conveyor

Weighing frame 2819.40 with belt conveyor

Features

- ▶ Customer-specific platform dimensions up to 2,000 x 800 mm
- ▶ Low-profile height of 73 mm
- ▶ Weighing ranges up to 300 kg, approvable
- ▶ With 4 strain-gauge load cells, type SEB46B
- ▶ Designed for integration into transportation systems (e.g. superstructure on a conveyor)
- ▶ Load-bearing structure made from formed and laser cut sheetmetal
- ▶ With mounting holes
- ▶ Top: Threaded holes for mounting into conveyor systems
- ▶ Bottom: rubber feet with blind hole M10-12 depth
- ▶ EU approval ex works

Weighing frames for integration into conveyor systems

Weighing frames 2819.00

- ▶ Double frame, screw-mounted on top and bottom for optimized, stress-free integration into customer-supplied structure
- ▶ Platform dimensions up to 2,000 x 800 mm
- ▶ Weighing ranges up to 300 kg, approvable
- ▶ With 4 strain-gauge load cells
- ▶ Designed for integration into transportation systems (e.g. superstructure on a conveyor)

- ▶ Load-bearing structure made from formed and laser cut sheetmetal
- ▶ Top: 4 threaded holes for mounting into conveyor systems
- ▶ Bottom: 4 threaded holes for mounting into conveyor systems
- ▶ EU approval ex works

Weighing frames 2812

- ▶ Profile tube frame, painted steel
- ▶ Dimensions available from 1.000 x 1.000 mm up to more than 5,000 mm
- ▶ Overall height from 95 mm and up with top-welded plates
- ▶ Weighing ranges up to 6 t
- ▶ 4 or 6 load cells integrated in the tube
- ▶ Top-welded plates for mounting onto conveyor system, mounting points based on customer specifications
- ▶ Painted RAL 7001 or other
- ▶ Including conveyor system, base frame, floor mounting on request
- ▶ System can be calibrated and approved ex works

Weighing frame 2819.00 painted

Weighing frame 2819.00 with customer-specific mounting points

Weighing frame 2819.00 stainless steel

Weighing frame 2812 with top-mounted chain conveyor

The fixing points are based on the requirements of the customer

Weighing frame 2812 special shape with recessed frame on operator side

Weighing Technology Airport - Check-in

Flight baggage scales 3015

Weighing platform

Weighing frame, flat construction, for mounting under customer-specific check-in conveyors

Flight baggage scales consist of

- ▶ A scale frame (see examples on pages 153 – 155) based on customer specifications, for integration into the check-in conveyor, very low-profile design, robust and overload-proof
- ▶ The central unit is in a compact housing for integration into the counter or into the scale frame
- ▶ The scale display is mounted on a low-profile module carrier for flush integration into the counter as an operator and passenger display
- ▶ The 4 or 8-key keyboard is mounted on a low-profile module carrier for flush integration into the counter as an operator and passenger display
- ▶ Separating the display and keyboard facilitates ergonomically optimized placement in the counter

Features

- ▶ Maximum load: 150 kg (others available)
- ▶ Division: 100 g (others available)
- ▶ Approval certificate iaw. OIML R76, class III
- ▶ Variable adjustments possible, functions based on operating specifications
- ▶ LC display, backlit, character height: 16 mm
- ▶ 2 LEDs for "overload" and "totaling complete"
- ▶ Power supply: 100 – 230 V, 50 / 60 Hz, integrated power supply
- ▶ Flush installation of display and keyboard, easy cleaning
- ▶ All modules (display, keyboard, CPU, etc.) are individual elements connected to each other with connectors

Optional

- ▶ RS 232 serial interface, V 24, Ethernet, USB interface
- ▶ Potential free overload message
- ▶ Conveyor and counter can be quoted based on customer specification

Weighing platform

Weighing plate with stainless steel platform for check-in situation without conveyor technology

Weighing Technology Airport - Check-in

Self Bag Drop solutions

Soehnle Professional baggage scales support automated baggage handling through variable interface options and alibi memory for approval-relevant data. All scale functions can be controlled by the control system via interfaces.

Baggage Sizer

Check hand luggage for maximum dimensions and weight. Individual design in customer design. Scale with rechargeable battery or mains supply.

Repack Area

Scales for service stations where passengers can repack before check-in to correct excess baggage.

Cargo

Scales for freight weight determination, terminal with identifier management, barcode, large displays, printer, interfaces to logistics software

Accessories

Base frames

We can offer customized base frames for our scale solutions to achieve the specified working height. These base frames are available in painted steel or stainless steel, and are equipped with height adjustable feet. Vibration dampers or wheel sets are also available as complements.

Base frame painted with rollers and flange-mounted stand, height-adjustable

Base frame, painted

Base frame stainless steel, mobile with height-adjustable terminal bracket

Base frame stainless steel, mobile

Scales for use in EX areas

EX 2/22

- ▶ The terminals 3010, 3025 and 3035 as well as the weighing platforms 28xx are optionally available with EX-equipment 2/22.
- ▶ The Ex-equipment for weighing terminals includes a 30 m long mains cable to the fixed (not pluggable) connection.

EX 1/21

- ▶ Weighing platforms 28xx are available with components (load cells, terminal box, measuring cable) for use in EX zone 1/21.
- ▶ Terminals for use in EX 1/21 are available for specific projects. Alternatively, terminals 30xx with Zener barriers can be placed in the safe area.

WLAN

Wireless connection of scales to a network, transmission of weighing and identification data. Particularly suitable for scales in mobile use.

WLAN box for connection to serial interface, with economical power consumption optimal also for battery-powered systems.

IT, Software, and communication solutions

Customer-specific requirements for our terminals 30xx and 37xx

Example – custom software 3035

The standard configuration of the 3035 terminal product line includes 10 software applications.

Custom software is also available for other weighing applications.

We can also offer the development of customized solutions.

Example 3035 for custom software solutions as follows:

Database Module

Integration of a database memory into the terminal 3035 for the
Creation of up to 5000 setpoints.

Balance scale

The balance scale system consists of two individual weighing platforms with one measuring point each. The two weighing platforms are independent from each other and can transmit the individual weight to the 3035 terminal. The weight values from weighing platform 1 and weighing platform 2 are displayed. The total of both weighing platforms is additionally displayed in the secondary display. The function keys are used to switch the display between weight and percent display.

Statistic-based checking

The software features a modified check value memory with 2 tolerance thresholds. The check function can also process 2 thresholds. The I/O module also receives the new tolerance thresholds as an output signal. The print format output receives a print format code that represents the current tolerance status during the check. Several counters are used for the statistics function: pass, TU2, TU1, T01, T02.

Furthermore start date and end date (+ time) of the statistic, and the total of the pass net values. These values are also included in the printing format as printing code. A new printing format "Lot End" is introduced, The statistic memory is entered and calculated with the print key or the print condition "Scale standstill over empty message".

Note: The software does not meet all requirements of the pre-packaging directive.

Barcode Filter

The barcode content can be separated and assigned to different functions.

Composite scale, approvable

The composite scale system consists of two individual weighing platforms with one measuring point each. The two weighing platforms are independent from each other and transmit the individual weight to the 3030 terminal. The weight values from scale 1 and scale 2 are displayed. The total of both weighing platforms is additionally displayed in the secondary display. The function keys are used to switch the display between weight and percent display. The terminal 3035 is available as a composite scale (standard), see page 105.

Weighing platforms with parallel switching points

A switching point can be assigned by the "dynamic switching" software; the switching point is monitored by the MP and reported to the terminal. The switching signal can be requested by the I/O module. Measuring points programmed in this manner report their switching points to the terminal even if they are not enabled. Up to 6 weighing platforms with one switching point each, can be connected.

Batch File

Complex processes can be automated by processing up to 5 jobs one after the other. A pause can be taken after each job.

Soehnle Industrial Solutions GmbH
